SYNOPSIS

Who is Sycorax? The first of all characters in William Shakespeare’s *The Tempest* to set foot on the island of the play. The problem is that Sycorax has no voice. She is barely mentioned by Prospero as a crooked, old, wicked witch who vilely locked Ariel, the spirit of the air, in a tree. But why would she lock Ariel in a tree? Here, we wouldn’t believe Prospero so much.

Directors’ Statement

In *The Tempest* by William Shakespeare we have found a common ground and a crossroad between our visions that helped us to merge theater and landscape, text and silence, movement and stillness in gesture that sets us to question ourselves and find the films we want to keep on making in the future.

With *Sycorax* we go back to this canonical text with a contemporary touch that blurs the limits of representation allowing us to challenge a patriarchal understanding of a voiceless female character, mother of Caliban, only remembered as the witch that first put step on the island.

2021. English. 14'

SYNOPSIS

Inside a café, after lunch and while smoking a whole pack of cigarettes, a middle-aged man poses himself and the audience an ambitious question: What is Love?. A collection of vignettes and situations will lead the man to the desired conclusion.

SYNOPSIS

Bilbao, 1984. In a time of industrial reconversion, within a closed society and an oppressive family environment, Kepa, a young working class, decides to fight for his dreams and the flight of his spirit, but the cruel reality will make him fall.

Director's Statement

How many people have dreamed of taking flight and flying away, away from stress, misery or their environment. Like so many, I have ever felt that longing, that need. The same feeling that Kepa, the protagonist of *The Fall of the Swift*, feels, a young man who decides to escape from a suffocating environment, portrayed in Bizkaia in the mid-1980s.

Director's Statement

We reclaim 1940s cinematographic languages and make them interact with the architecture from the 3rd to the 19th Century. We evoke the esotericism of Cornelius Agrippa and Georges Franju. In order to reach our audience (the ones who passed away and the ones that are yet to arrive), this film should be produced and screened in the Black Iron Prison.

Years gone by full of rancor, unhealed wounds, hurt feelings, and emotions pending resumption or reconciliation. With COVID 19 spreading and lockdown enforced, María Luisa and Mai - a mother and a daughter - are to spend a whole night together. A spell of time throughout which they'll try to flee, although neither really wants to escape from it.

Mai will have to decide whether to go back to her easy life, apparently devoid of complications, or confront her own ghosts and try to come to terms with her past.

NEW SPANISH SHORTS MEN

PNR

Plataforma Nuevos Realizadores

Plataforma Nuevos Realizadores (the New Directors Platform) is a national non-profit association created in 1987 and founded in 1989 by a group of filmmakers and emerging producers, and which has counted among its partners, at the beginning of their film careers, with directors such as Icíar Bollaín, Fernando León, Jaime Rosales, Chema de la Peña, Juan Vicente Córdoba, Manane Rodríguez, Mónica Laguna, Miguel del Arco, Esteban Crespo and a long list of renowned filmmakers.

The PNR was born with the aim of achieving a public space for new filmmakers, for the screening and promotion of their short films, and also serve as a platform for their first long works. Today the technical possibilities have changed enormously but, in essence, the difficulties of those who begin their film careers are similar, before more focused on production and today more lacking perhaps at the level of diffusion. Therefore, it has been establishing collaboration agreements on issues related to the exhibition, regulations and audiovisual training with public and private entities, such as Filmoteca Española, Cineteca, ICAA, Community of Madrid, Madrid City Council, Academy of Cinema, SGAE and SGAE Foundation, EGEDA, audiovisual associations of the sector, etc.

Our activities include the organization of the Madrid Film Festival (festivalcinemadrid.es) that will celebrate its 30th edition, the web history of the Spanish short film (historianuevosrealizadores.es) that contains more than 200 short films for the enjoyment of the good short film, and periodic exhibitions of the works of our associates which bring more than 8,000 spectators a year to theaters. We also collaborate with institutions such as the ICAA for the dissemination of the short film in schools and internationally with the creation of Shorts From Spain (shortsfromspain.com) and Aulacorto (aulacorto.mecd.gob.es).

Coordinadora del Cortometraje Español

Coordinadora del Cortometraje Español (Spanish Short Film Coordinator) was founded thirteen years ago in order to represent, defend and promote Spanish short films, as well as to act as a representative of the national short film industry with institutions and organizations, public and private, being the only association that includes directors, producers, artists and technicians, managers, journalists, distributors, service companies, festivals and other institutions.

Coordinadora has worked in launching projects such as Aulacorto.com (a film literacy programme that introduces short films in schools), the releasing of Shorts from Spain (an international promotion catalogue for Spanish shorts), as well as the organization of "El Día + Corto" (The Shortest Day) every December 21st. Along these lines of work, the association is developing the Spanish Short Film Archive, an online platform that will aggregate all the information about the Spanish Short Film Industry.

Coordinadora is also partnering with regional and national institutions in specific programmes and initiatives to promote and spread internationally the Spanish Short Films, their professionals, their companies and festivals.

These activities are oriented to the creation of an independent and competent organism aimed to cover the whole spectrum related to production, promotion, conservation, distribution, training, communication and innovation of Short Films in Spain.

Asociación de la Industria del Cortometraje (AIC)

Asociación de la Industria del Cortometraje (Association of the Short Film Industry) aims to bring together companies and freelancers who are devoted professionally to the production / distribution of short films, to defend the interests of the short film industry before any public institution (state or regional), in international markets, in negotiations with televisions, unions and any organism of the audiovisual industry before which the companies dedicated to short films need to be represented, serving as a representative of its members before those organizations.

What do we offer? representation and a valid spokesperson before several organizations, institutions and televisions. Promotion of the distribution of short films in theaters through an effective program of grants from ICAA and similar regional organizations. Fight for the public television operators commitment to invest in short films (co-production and broadcasting rights). Stand up for the growth of current public production grants for short films. All this and much more.
