

Film Projection Criteria

TIFF loans 35mm prints exclusively to members of the International Federation of Film Archives (FIAF) and approved non-member theatres.

An interested borrower that is not a current member of the FIAF must meet certain criteria in order to screen a 35mm film print from the Film Reference Library (FRL) Screening Collection.

Please provide the following information to FRL Senior Manager Michelle Lovegrove Thomson at filmcollection@tiff.net:

- Information on projectionist qualifications
 - Full name, detailed applicable work experience, and training

- Projection equipment
 - Date installed
 - Projector make and model (itemize picture and sound head separately if applicable)
 - Date last serviced
 - Preventative maintenance schedule
 - Name of company that services equipment

The above criteria follow FIAF best practices in determining loan suitability.

TIFF reserves the right to inspect the facility prior to issuing a loan agreement, with one of the interested theatre's projectionists present.

It is recommended that interested theatres/programmers reach out to the FRL Screening Collection at least two months prior to a proposed screening date.
