

## BROOKLYN — PROJECT #SEK002386 REPLACEMENT OF COMBINED SEWERS, BULKHEADING OF EXISTING SEWERS AND WATER MAIN REPLACEMENT IN PARK PLACE

The NYC Department of Design and Construction is investing approximately \$10 Million to upgrade the infrastructure in Prospect Heights, Brooklyn. The SEK002386 project will help improve water quality and limit the likelihood of flooding during extreme weather events by upgrading utilities and replacing or reconstructing combined sewers, catch basins, and other underground components. The anticipated project completion is summer 2025.

# PROJECT QUARTERLY

## WHAT'S NEW AT PROSPECT HEIGHTS

- Completion of concrete road base and temporary asphalt at Park Pl. between Carlton Ave. and Vanderbilt Ave.
- Ongoing installation of the 24- inch reinforced concrete pipe combined sewer on Vanderbilt Ave. between Park Pl. and Sterling Pl. Approximately 90 linear feet of the combined sewer line has been installed.

## PROJECT HIGHLIGHTS

- 1-3. Excavation for concrete base work at Park Pl.  
4. Application of concrete base at Park Pl. between Underhill Ave. and Vanderbilt Ave.

## WHAT TO LOOK OUT FOR

### PROPOSED WORK SCHEDULE

#### January - March 2025

- Pouring of concrete road base and temporary asphalt on Park Place between Vanderbilt Avenue and Underhill Avenue
- Installation of the 24-inch reinforced concrete pipe for the combined sewer line at Vanderbilt Avenue between Park Place and Sterling Place
- Excavation for the installation of 36-inch reinforced concrete pipe for the combined sewer line at the intersection of Vanderbilt Avenue and Park Place

#### April - June 2025

- Pavement, curb and sidewalk restoration

### ACCOMMODATION FOR INDIVIDUALS WITH DISABILITIES

If you or someone you know may be uniquely impacted by this project, please contact the project CCL and/or RE, as soon as possible, to make them aware of your situation or concern.

### COMMUNITY IMPACTS

During construction hours, you can expect the following:

- Parking and driveway/loading dock restrictions. Signs will be posted within the affected areas. Emergency vehicle access and pedestrian access to sidewalk and buildings will be maintained at all times. Parking and driveway restrictions will be cleared as soon as possible.
- Water service interruptions. For the remainder of the project there will be occasional water service interruptions to allow for pipe replacement. Advanced notice will be given for all planned interruptions. Water service will be restored by the end of each day.
- Vehicular travel lane closures will be required, as well as detours. Warning signs will be posted in advance.
- Increased levels of dust, noise, and heavy equipment.

#### Community Construction Liaison (CCL)

The DDC has assigned Shernell Pemberton, as the Community Construction Liaison (CCL) for this project. Please contact Ms. Pemberton for project updates or any project related inquiries/concerns you may have.
