Good Afternoon,

The SEK002386 contractor, Perfetto, is reviewing the latest set of revisions provided by the MTA to begin the underground utility work on Vanderbilt. Although an official start date has not yet been provided, the contractor and the MTA have made significant progress over the past two weeks.

Both PCC and MTA understand the impact this delay has had on the community and are working with an even greater sense of urgency to complete this work after recent conversations with DDC and local elected officials.

We understand the inconvenience this situation has caused and appreciate your patience as we work towards a solution. We will continue to keep you informed of any further developments.

Thank you for your understanding and cooperation.
