

## Replacement of Combined Sewers, Bulkheading of Existing Sewers and Water Main Replacement in Park Place

### Brooklyn

### Project # SEK002386

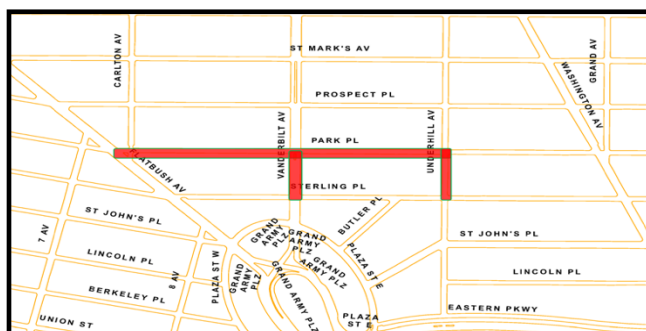

The NYC Department of Design and Construction is investing approximately \$10 Million to upgrade the infrastructure in Prospect Heights, Brooklyn. The SEK002386 project will help improve water quality and limit the likelihood of flooding during extreme weather events by upgrading utilities and replacing or reconstructing combined sewers, catch basins, and other underground components. The anticipated project completion is Q3 2023.

#### Work Completed to Date

- Installation of 13 mechanical joint gate valves to control water flow
- Replacement of six (6) fire hydrants
- Replacement of 20" water main on Underhill between Park Place and Sterling
- Replacement of 8" water main on Underhill between Park Place and Sterling to help meet future water needs
- Replacement of 12" water main on Vanderbilt between Park Place and Sterling
- Installation of one (1) 3" wet connection to help prevent water interruptions
- Installation of three (3) type-1 catch basins to drain excess rainwater
- Installation of 676 linear feet of 42" combined sewer on Park Place between Carlton Avenue and Vanderbilt Avenue.

#### Proposed Work Schedule

- Installation of 24" combined sewer on Vanderbilt Avenue between Park Place and Sterling Place.

The neighborhood we are working on is Prospect Heights

#### Special Needs

Individuals with special needs who may be uniquely impacted by this project should contact the project's Community Construction Liaison, as soon as possible, to make them aware of your situation. DDC will work with you to attempt to minimize the inconvenience as much as possible.

#### Water Service Interruptions

During the course of the project there will be service interruptions. To facilitate watermain replacement, the existing water service must be shut off by closing the valves at either end of the section. Advanced notice will be given for all planned interruptions. Water service will be restored at the end of the night.

#### Community Impacts

During construction hours, you can expect the following:

- Increased levels of dust, noise, and heavy equipment.
- Vehicular travel lane closures will be required, as well as detours. Warning signs will be posted in advance.
- Parking and driveway/loading dock restrictions. Signs will be posted within the affected areas. Emergency vehicle access and pedestrian access to sidewalk and buildings will be maintained at all times.

#### Property Damage

You are advised to inform the DDC or the contractor of any property damage that may have occurred due to this project. If the contractor fails to respond within 10 days, you should inform the DDC Borough Director in writing. If you intend to file a claim you must do so within 90 days of the occurrence with the New York City Comptroller's Office.

#### Community Construction Liaison (CCL)

The DDC has assigned **Danilo Mikhaylov** as the Community Construction Liaison (CCL) for this project. Please contact Mr. Mikhaylov for any project related inquiries/concerns you may have:

Phone: 347.696.7530
