***TOBACCO RETAILER AND ELECTRONIC  
CIGARETTE RETAIL DEALER LICENSES***

The Department of Consumer and Worker Protection ("DCWP" or "Department") is amending its rules on the application process for tobacco retail dealer and electronic cigarette retail dealer licenses that periodically become available within community districts. The number of tobacco retail dealer and electronic cigarette dealer licenses is now capped.

New licenses become available to prospective licensees only when the number of licenses in use in a given community district falls below the license cap for such community district. Right now, the application process for available licenses is administered annually, beginning in May of each year. These amendments establish that the application process will be administered twice per year, beginning in May and November. This change allows eligible businesses to apply sooner for licenses.

Sections 1043, 2203(c), and 2203(f) of the New York City Charter and Sections 20-104(a) and 20-104(b) of the New York City Administrative Code authorize the Department to make these rules. These new rules will take effect on February 19th, 2023.

NEIGHBORHOOD GRANTS

Citizens NYC is making \$1 million in direct cash grants to New Yorkers to improve the quality of life in their neighborhoods.

All in Neighborhood Grants support community-led projects with grants up to \$3,000, and our Neighborhood Business Grants support local businesses with grants up to \$10,000. Each grantee partner awarded has access to resources and a network of like-minded community leaders.

Neighborhood Business Grants award up to \$10,000 will fill gaps in funding by prioritizing businesses owned by people of color, immigrants, and women. While small businesses have kept their doors open, there is a significant need for assistance to fund business continuity. This period of recovery is a pivotal point to keep going. Citizens NYC understands that businesses are essential in the fabric of communities. They look for businesses that give back to the community they serve. Proposals that focus on both physical and human infrastructure will be prioritized (technical system upgrades, location alterations, hiring support, marketing, training, PPE, etc.). They make grants to barber shops, restaurants, food carts, vegetable stands, eCommerce and other small businesses. Unlike many financial opportunities currently available to small businesses, this program will provide grants rather than loans.

All In Neighborhood Grants awards micro-grants up to \$3,000 to community building projects carried out by resident-led groups to address issues they identify as important

to them. Today, their grantmaking focuses on supporting projects that bring residents together to improve neighborhood life, strengthen local leadership, and scale community partnerships. Grassroots leaders, especially in low-income communities, know and have what it takes to roll up their sleeves and make changes to boost civic engagement, neighborhood wealth, and community health.

For more information and to apply, visit <https://www.citizensnyc.org/grantmaking>.
