

BROOKLYN — PROJECT #SEK002386 REPLACEMENT OF COMBINED SEWERS, BULKHEADING OF EXISTING SEWERS AND WATER MAIN REPLACEMENT IN PARK PLACE

The NYC Department of Design and Construction is investing approximately \$10 Million to upgrade the infrastructure in Prospect Heights, Brooklyn. The SEK002386 project will help improve water quality and limit the likelihood of flooding during extreme weather events by upgrading utilities and replacing or reconstructing combined sewers, catch basins, and other underground components. The anticipated project completion is summer 2024.

PROJECT QUARTERLY

WHAT'S NEW AT PROSPECT HEIGHTS

- Con Edison removal of all four feeders at the intersection of Park Pl. and Vanderbilt Ave. to facilitate the installation of a combined sewer line.

PROJECT HIGHLIGHTS

(From top left clockwise) Photos 1 and 2: Storage area on Vanderbilt Ave.; Photo 3: Pest control; Photo 4: Excavation for New 24-inch Reinforced Concrete Pipe on Vanderbilt Ave.

WHAT TO LOOK OUT FOR

PROPOSED WORK SCHEDULE

April-June

- Excavation, installation of cradle concrete and backfill open trenches for 24-inch reinforced concrete pipe

July

- Excavation, installation of concrete cradle and backfill of open trenches for 36-inch reinforced concrete pipe for combined sewer line

July-August

- Pavement, curb and sidewalk restoration

ACCOMMODATION FOR INDIVIDUALS WITH DISABILITIES

If you or someone you know may be uniquely impacted by this project, please contact the project CCL and/or RE, as soon as possible, to make them aware of your situation or concern.

COMMUNITY IMPACTS

During construction hours, you can expect the following:

- Parking and driveway/loading dock restrictions. Signs will be posted within the affected areas. Emergency vehicle access and pedestrian access to sidewalk and buildings will be maintained at all times. Parking and driveway restrictions will be cleared as soon as possible.
- Water service interruptions. For the remainder of the project there will be occasional water service interruptions to allow for pipe replacement. Advanced notice will be given for all planned interruptions. Water service will be restored by the end of each day.
- Vehicular travel lane closures will be required, as well as detours. Warning signs will be posted in advance.
- Increased levels of dust, noise, and heavy equipment.

DID YOU KNOW?

New York City has over 6,600 miles of sewer mains and pipes. Together with 14 wastewater treatment plants, they handle and process 1.3 billion gallons of sewage each day.
