PRODUCT SAFETY RECALL

14.08.2026

NAME: **Lighting chain**

BRAND: **VERK GROUP®**

Dear Customer,

There is a recall of the product on the Safety Gate portal ([details here](#)). Due to the insufficient mechanical strength of the product, live parts are accessible, which could result in electric shock. Moreover, the product has an insufficient conductor cross-sectional area and inadequate design, where the extension socket allows for single-pole insertion of the plug.

Please do not use it if you have an affected product with the EAN **5907451366691**. Please contact **support@wolt.com** to get a refund if you have an affected product.

From our side, we have taken all necessary steps to make sure all the affected products are no longer available on our platform. If you have any questions or concerns, please don't hesitate to contact support@wolt.com. We are here for you!

Best regards,
Wolt Support
