Programme Requirements:

Student will be required to have a device, either a computer or Tablet. They will also require an instrument to learn, practice and play on. The eAr will assist in selecting and buying an instrument

if that is required. The only other requirement is curiosity and a love of music.

Students Responsibilities:

Music will one day be a part of your daily life - it probably already is, as you sing while you walk, sometimes quietly and sometimes out loud. Learning to play an instrument takes desire and commitment. It will take a bit of time, but you will surely get there, so the only responsibility is to commit to playing a couple of times a week. Once you get the hang of it, you won't be able to resist your instrument.
