**TAX BILL**

Form **1040** Department of the Treasury—Internal Revenue Service (99) **2021**  
U.S. Individual Income Tax Return

Your first name and middle initial <b>JEFFREY PRESTON</b>	Last name <b>BEZOS</b>
--	---------------------------

Line 1 is total wealth. Line 2 removes “cash assets” (which are assumed to have no unrealized gains). Line 3, for founders of listed companies, 100% of the current market value of the shares in the companies they founded is assumed to be taxable (in practice a small fraction has a non-zero basis due to acquisition via stock-options, but this can be neglected), i.e., 0 basis. Tax owed only includes taxes on the existing stock of unrealized gains; it excludes tax owed on future income and gains. Thus it can be seen as a lower bound for the amount of tax owed over the 10-year budget window. Minimum tax rate: 20.0%.

1 Wealth (\$ billion) . . . . .	1	\$ 190
2 Wealth in Stocks (\$ billion) . . . . .	2	\$ 174
3 Estimated Taxable Gains (\$ billion) . . . . .	3	\$ 174

Amount You Owe	<b>\$ 35 Billion</b>
