Risk profile

Investment objective and strategy

The Sygnia Life Berkshire Hathaway Fund is an innovative and low-cost fund that gives South Africans access to a global investment powerhouse. Berkshire Hathaway Inc. is valued at over US\$496 billion and is ranked as the world's largest financial services company on the Forbes Global 2000 list.* It is headed up by two legendary executives: Chairman and CEO Warren Buffett and Vice-Chairman Charles T Munger . The fund complements Sygnia's already extensive range of passive index-tracking unit trusts and ETFs.

With Berkshire "A" shares valued at over R4 million per share, the opportunity to invest in the company and take advantage of its high average annual growth rate was previously restricted to only a few. Through the Sygnia Life Berkshire Hathaway Fund, however, investors can access the fund from as little as R5 000 on a monthly or once-off basis.

Berkshire Hathaway Inc. has holdings in a diverse collection of business activities, ranging from insurance (through companies like GEICO, Berkshire Hathaway Primary Group, General Re Corporation and Berkshire Hathaway Reinsurance Group) to railways (Burlington Northern Santa Fe, LLC), to regulated electric and gas utilities through Berkshire Hathaway Energy. Other holdings are in service and retail; the manufacture of industrial, consumer and construction goods; finance and financial products; and the wholesale distribution of groceries and other products. The Sygnia Life Berkshire Hathaway Fund is the ideal way to access US investments with a margin of safety, providing a balance with Sygnia's other active risk, growth-based funds (the Sygnia FAANG Plus Equity Fund and the Sygnia 4th Industrial Revolution Global Equity Fund). Individual investors gain exposure to offshore assets on an affordable basis, with the option to invest their discretionary savings into a five-year endowment, a retirement annuity or a living annuity.

*By revenue.
