

FABRICUT®

Dear valued Fabricut customer,

As you are likely aware, the world supply chain has been experiencing notable challenges due to increased demands, cost increases of raw materials, lack of global labor and shipping constraints. All of these factors are resulting in increased pricing within all areas of the supply chain in our industry. Fabricut's various hardware brands have all been hit with price increases which we have absorbed until now. While we have absorbed these increases for as long as possible we now need to pass on some of the increases to our customers.

Paris Texas Hardware and The Finial Company have already published a price increase and now we have increases in Byron & Byron, Trend, Fabricut and Quick Ship Hardware. Increases average anywhere from 6-25%. Byron & Byron, which has not had a price increase since its launch six years ago, has incurred the most significant increases. Please note that the new pricing is already on fabricut.com in the Download Center and that the new price lists take effect on Monday, October 18th. Fabricut will honor existing pricing on any hardware quotes given in the last 30 days.

For questions or help with your hardware order, please contact our dedicated Hardware Customer Service team at 800.763.1348 or hardware@fabricut.com. We thank you for your business and appreciate your continued loyalty to all of our brands.

Sincerely,

A handwritten signature in black ink, appearing to read "David I. Finer". The signature is fluid and cursive, with a long horizontal stroke extending to the right.

David Finer
