GRIFTER

PERFORMANCE

CONTEMPORARY BROKEN LINES ARE WOVEN WITH THE LOOK OF HEATHERED WOOL. THE SOLUTION DYED POLYESTER YARNS OFFER ENHANCED DURABILITY. GRIFTER HAS A THICK PILE AND IS ALSO FADE RESISTANT AND CLEANABLE.

Pile shedding is a normal characteristic of heavy quality rugs. When necessary, clip them flush to the rug surface, but avoid pulling the yarn knots out of the surface pile.

Suction vacuum preferred. If vacuum has a beater bar, make sure the setting is high enough to avoid damaging the rug.

Blot spills with a clean sponge or cloth. For stubborn spots, use a mild soap and water mixture. Work solution in slowly, rinse and blot to remove soap residue.

Rug padding is recommended.

These rugs are artisan made, some natural variation of color and texture may occur.
