

# The *pros* in progress

- Pioneer of the meat-free category – no one knows the sector like we do.
- We've pushed the boundaries of protein with our commercial production for 40+ years, always breaking new ground.
- Constantly pursuing what's next to innovate and improve our products.
- Trusted big brands to revolutionise their menus.

## *Spicing up* Slug & Lettuce

### *Colourful new dishes*

We inspired a host of creative new Quorn recipes to suit Slug & Lettuce's fashionable restaurants, and trendy diners – like Quorn Katsu Curry with basmati or cauliflower rice topped with pomegranate seeds. And a vegan feast sharer of sliders, nachos, olives and tacos.

### *Famous favourites*

Our famous Quorn Buttermilk Style Burger is still on the menu, layered with smoky soya sloppy Joe, BBQ pulled jackfruit and melted vegan cheese. And diners can elevate pasta dishes like mac and cheese, or tomato and basil pasta by adding a Buttermilk Style Burger.

### *Keeping breakfast classic*

Sometimes you can't beat a classic, with Quorn vegan sausages now on the veggie and vegan breakfasts.

## *Sparkling Creativity* at Hungry Horse

With Quorn, children can let their inner chef get creative too. Now, they can build their own meal at Hungry Horse by adding Quorn vegan sausages, and two vegetables or sides.

## *Refreshing classics* at Chef & Brewer

From the beloved sausage butty, to bangers, mash and gravy, we revitalised pork classics at Chef & Brewer with Quorn Cumberland Sausages.

...

## *A revelation* for Revolution

We got Revolution diners fired up for brunch with a new vegan brunch grill that's as fabulous as their stylish diners. Made with Quorn vegan sausages, charred plum tomatoes, fried mushrooms, hash browns and sourdough, our new dish pairs perfectly with a fancy cocktail or two.

## *Pushing possibilities* with Greggs

Think you can't beat a classic sausage roll?

Think again.

We partnered with the UK's favourite high-street baker to create a ground-breaking vegan sausage roll that even meat-lovers choose over the original.

## *Inventing KFC* for KFC

**KFC**

QuornPro's ChiQin range cooks so profoundly like chicken that it's good enough for one of the world's most popular chicken restaurants. We partnered with KFC in over 30 countries to create a new fillet that tastes at home with their signature 11 secret spices, crispy batter and burger recipes.
