

Subject line: You can now use TicketSpot with Square

Pre-header: Connect in minutes to process ticket sales using Square

Hello [Customer],

The TicketSpot app now integrates seamlessly with Square, creating orders directly within Square whenever attendees purchase tickets. This setup enables you to receive payouts efficiently, ensuring a smooth transaction process from ticket sales to revenue collection.

It's free to get started.

Connect TicketSpot to your Square account today.

In just a few clicks, you can connect your accounts and use the integration right away.

Support your event on any platform with our broad compatibility.

Sell tickets effortlessly on any platform with dedicated support for WordPress, Wix, and Shopify, featuring easy integration and customization to match your site's design.

Maximize earnings with zero fees.

Keep 100% of your ticket sales with our zero-fee policy, designed to boost your profitability while offering competitive ticket prices to your customers.

Enhance your event's success using our advanced features.

Benefit from customizable widgets, dynamic pricing, secure ticket scanning, and comprehensive analytics for a seamless event management experience from start to finish.

Square software and hardware tools allow you to securely take payments any way you want—whether online or in-person. Beyond payments, Square has a broad set of flexible tools for nearly any task, like point-of-sale, eCommerce, pickup and delivery, online appointments, marketing, and more.
