<Add Square badge - [download here](#)>

It’s free to get started.

<Please leverage the most relevant messaging options for your needs>

Connect [app] to your Square account today.

In just a few clicks, you can connect your accounts and use the integration right away.

Streamline your [task] with [app] and Square.

Connect your [app] account with Square to streamline [insert integration functionality and/or value].

Simplify your business operations with [app] and Square.

<Food & Beverage-focused examples>

Streamline front-of-house and back-of-house operations, no matter the sales channel.

Connect your Square Point of Sale to import menu items to your custom website and mobile app. All orders will feed through your POS to the kitchen to start food prep automatically.

Offer online and contactless ordering, delivery, and curbside pickup.

Connect your Square account to accept online payments via your custom mobile app, website, and third-party marketplaces. Connect your Square Terminal to take touch-free orders and payments tableside or in a queue.

Square software and hardware tools allow you to take payments any way you want, whether online or in-person. Beyond payments Square has a broad set of flexible tools that work together seamlessly for nearly any task.
