

# Square Payroll + Cash App

Square Payroll integrates with Cash App. Your team is paid one day faster when they use Cash App as a direct deposit method.

---

## Why Cash App?

- Teams get paid 1 day faster to Cash App.
- No fee solution for employees without bank accounts.
- Reimbursed ATM withdrawals with the Cash Card.
- The free Cash Card can be used anywhere Visa is accepted.

---

## How it works

- 1 Invite your team members to set up their online payroll account and select direct deposit as the payout method.
- 2 Team members can then set up their Cash App account and get their free Cash Card.
- 3 When you run payroll, pay is deposited to their Cash App account 1 day early.
- 4 Team members use their Cash Card to access their pay or transfer funds to another bank account.
