A black and white line drawing of a maze. At the top left, a wizard with a long white beard and a pointed hat stands with his arms outstretched. At the top right, an ant stands on its hind legs, facing left. In the center of the maze is a treasure chest filled with coins, with its lid open. A small arrow points upwards towards the chest. The maze is composed of a single continuous line that forms a complex path with many dead ends. The path starts at the bottom left, goes up, then right, then up again, and finally reaches the treasure chest. The wizard, ant, and treasure chest are all drawn with simple, clean lines. The wizard has a long white beard and a pointed hat. The ant is standing on its hind legs, facing left. The treasure chest is filled with coins and has its lid open. A small arrow points upwards towards the chest. The maze is a single continuous line that forms a complex path with many dead ends. The path starts at the bottom left, goes up, then right, then up again, and finally reaches the treasure chest.
