AMORIM CORK SOLUTIONS

At Amorim Cork Solutions, we develop solutions that incorporate high-performance cork composites, combining innovation and sustainability.

We reuse cork - a 100% natural, renewable and recyclable raw material - to develop ground-breaking solutions for various industries such as aerospace, maritime, mobility, sealing, energy, construction, flooring, sports surfaces, playgrounds, toys, home, office and leisure.

Each product we create represents a strategic response to current market needs and our commitment to sustainability.

At Amorim Cork Solutions, each innovation reinforces the promise of a future where nature and technology coexist in perfect harmony.

Cork comfort benefits from nature, to your special space

Silence

Reduces the walking sound up to 53%.

Natural Thermal Insulation

Optimal floor temperature all year round.

Walking Comfort

Reduces body tension and fatigue.

Impact Resistance

Highest shock absorbing performance.

Indoor Air Quality

Compliance with the strictest indoor air quality standards.

Every step leaves a mark and ours is Climate Positive

Environment

No trees are damaged or cut during harvesting

Regenerates itself after each extraction

Helps reduce global warming

Biodiversity hotspot

Economy

A sustainable economy

Rural areas economic engine

WWF estimates that more than 100,000 people are economically dependent of cork-related business activities.

Highest paid agricultural job

Cork harvesting is an activity that requires experience and high skills, to prevent, damaging the tree during the process.

Social Impact

An invitation to live from the land

Crossing Generations

To be able to perform the harvesting takes several years of training.

Prevents Rural Desertification

Contributes to settle people in areas at risk of desertification.
