Tekstur paper-composite panels feature extraordinary impact, water, and fire-resistance.

PATTERN MEETS PERFORMANCE.

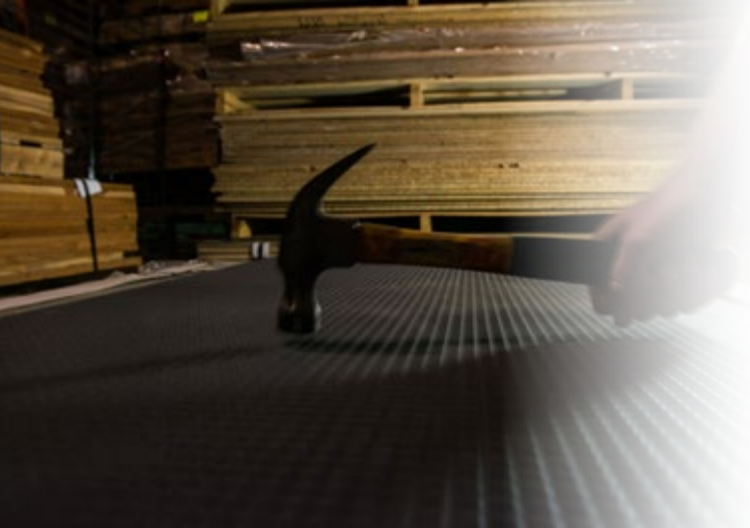

Tekstur products are the modern-day solution for high-performance architectural panels.

BENEFITS

- Sustainable Materials
- Visually Attractive
- Impact Strength
- Fire Resistance
- Water Resistance
- LEED Contributing
- Extremely Durable
- Mold and Stain Resistant
- Custom Patterns Available
- "Ready-to-Install" Options

OUR SECRET

The composition of the paper-composite we use to fabricate our panels allows us to produce patterns that hold even the smallest detail through a lifetime of wear and abuse.

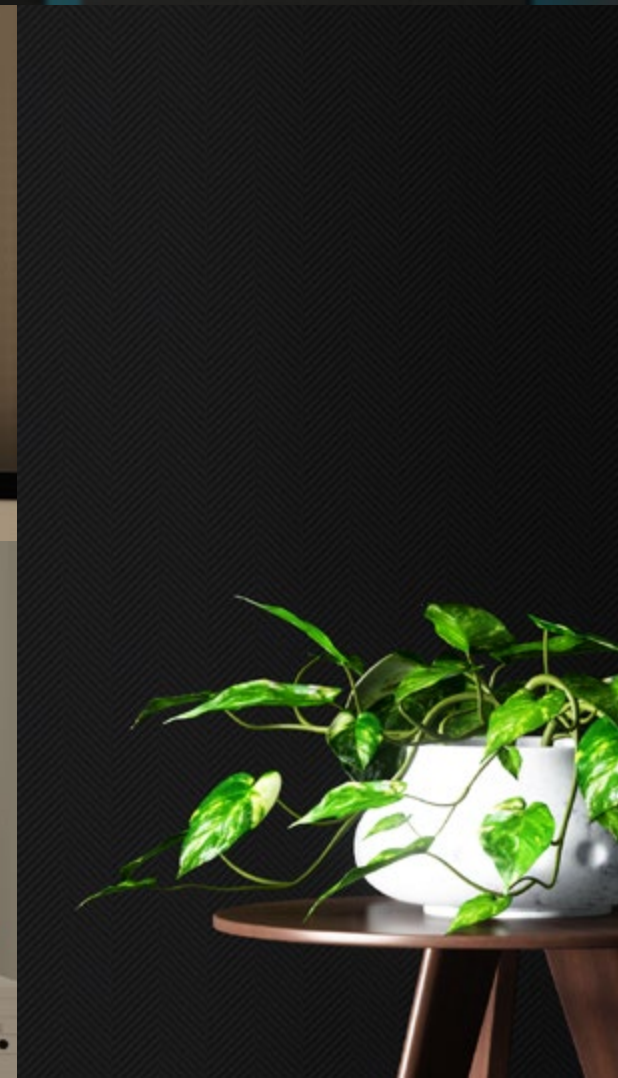

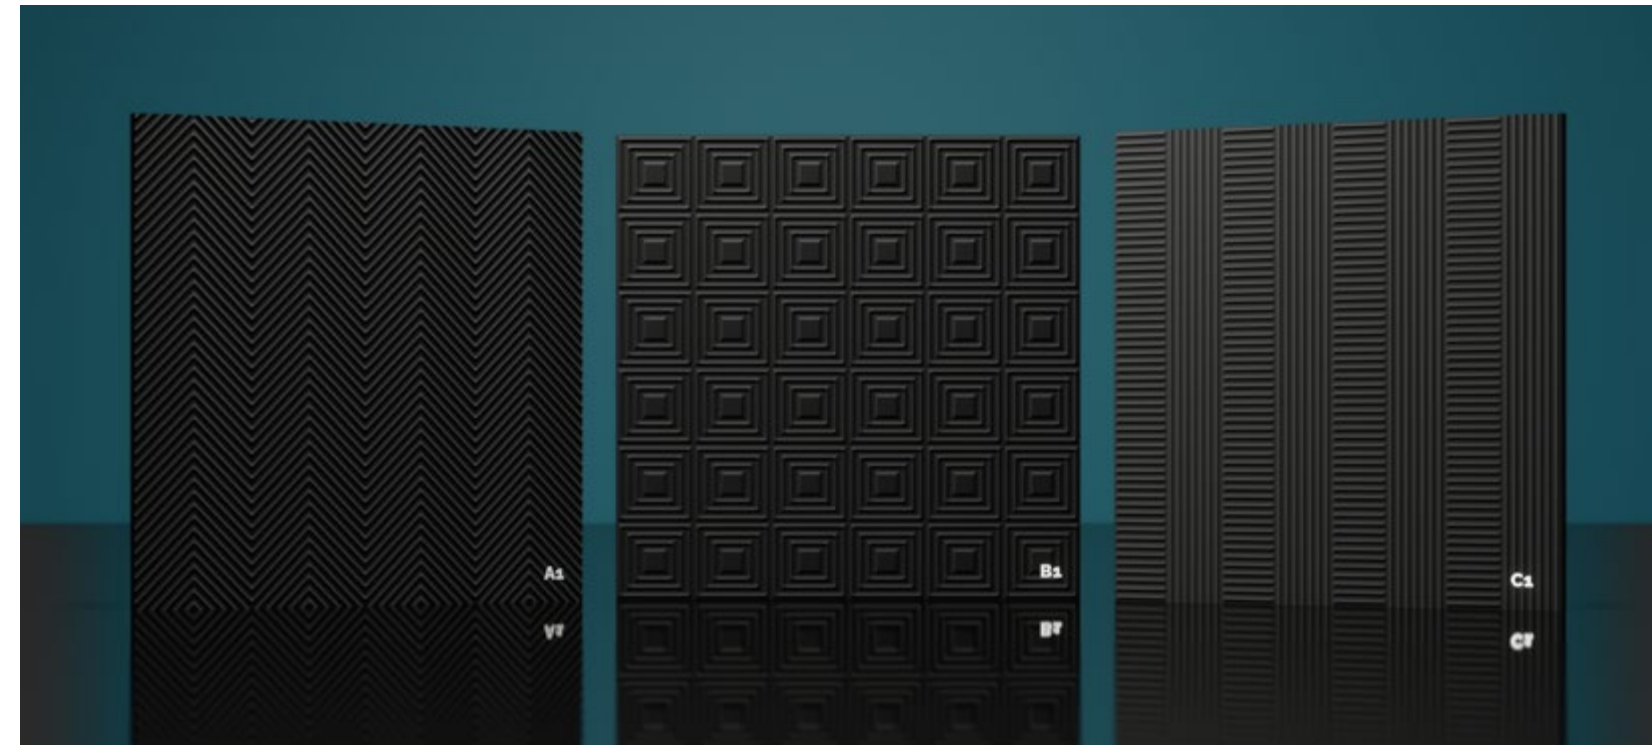

PROVEN DURABILITY

PERFECT FOR:

Hallways
Lobbies
Elevator Cabs
Feature Walls
Wainscoting
Restaurants
Back-Splash
Stair Treads
Cabinet Facing
Climbing Walls
Exterior Facade
Toilet Partitions
Garden Dividers
Recording Studios
Gym Wall Cladding
Healthcare Facilities
Theatrical Set Design
And Much More...

NEW PATTERNS Spring 2022

AVAILABLE PATTERNS

Tekstur panels are 48" x 120", but can be cut to size by our services department. Panel thicknesses range from 1/8" to 1" thick depending on color. Almost every pattern can be rotated 90°, to allow for vertical or horizontal panel orientation.

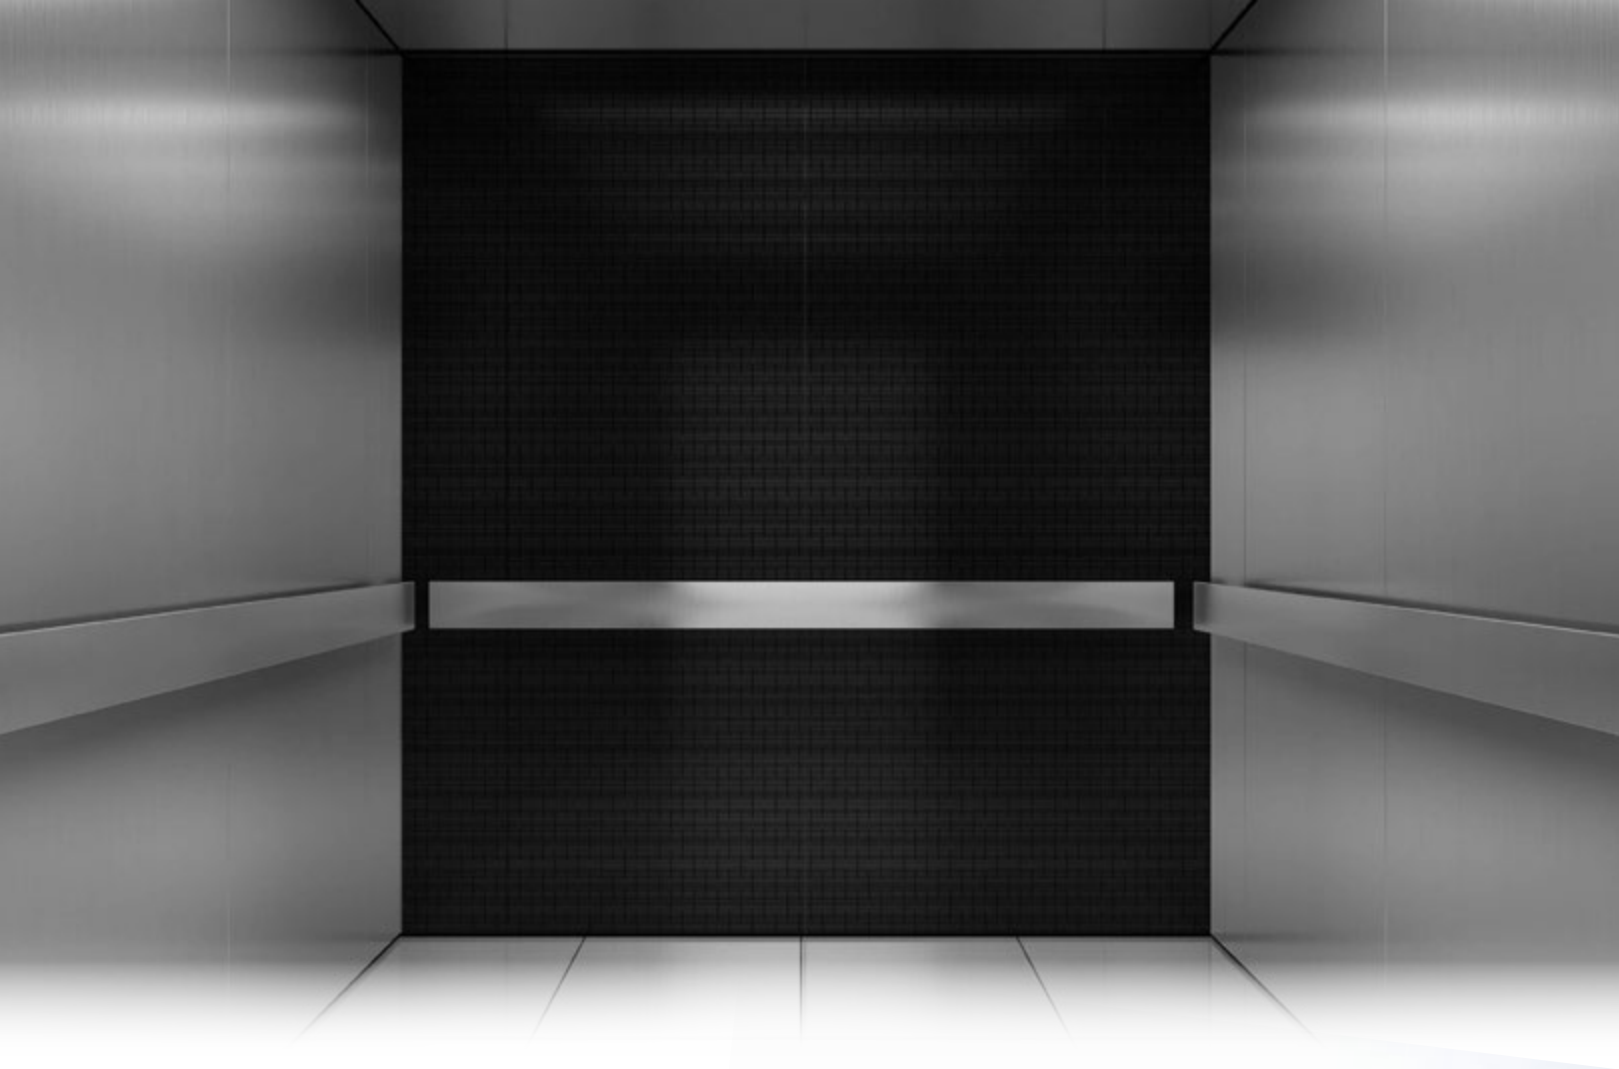

Please use the 3D Pattern Tool on our website to generate a spec-sheet and SKU number for your selected pattern.

AVAILABLE COLORS

Ebony 101	Dark Chocolate 102	Cocoa 103
Caramel 104	Autumn 105	Burgundy 106
Navy 107	Warm Gray 871	Pewter 475
Greige 868	Cappuccino 414	Soft White 410

Colors 101-107 are FSC® Certified and Class A Fire Rated

Material

Paper Composite

Panels

Paper composite panels have become a popular material for interior and exterior architectural surfaces. Post-consumer recycled paper is stacked, saturated with a thermoset resin, and set with heat and pressure.

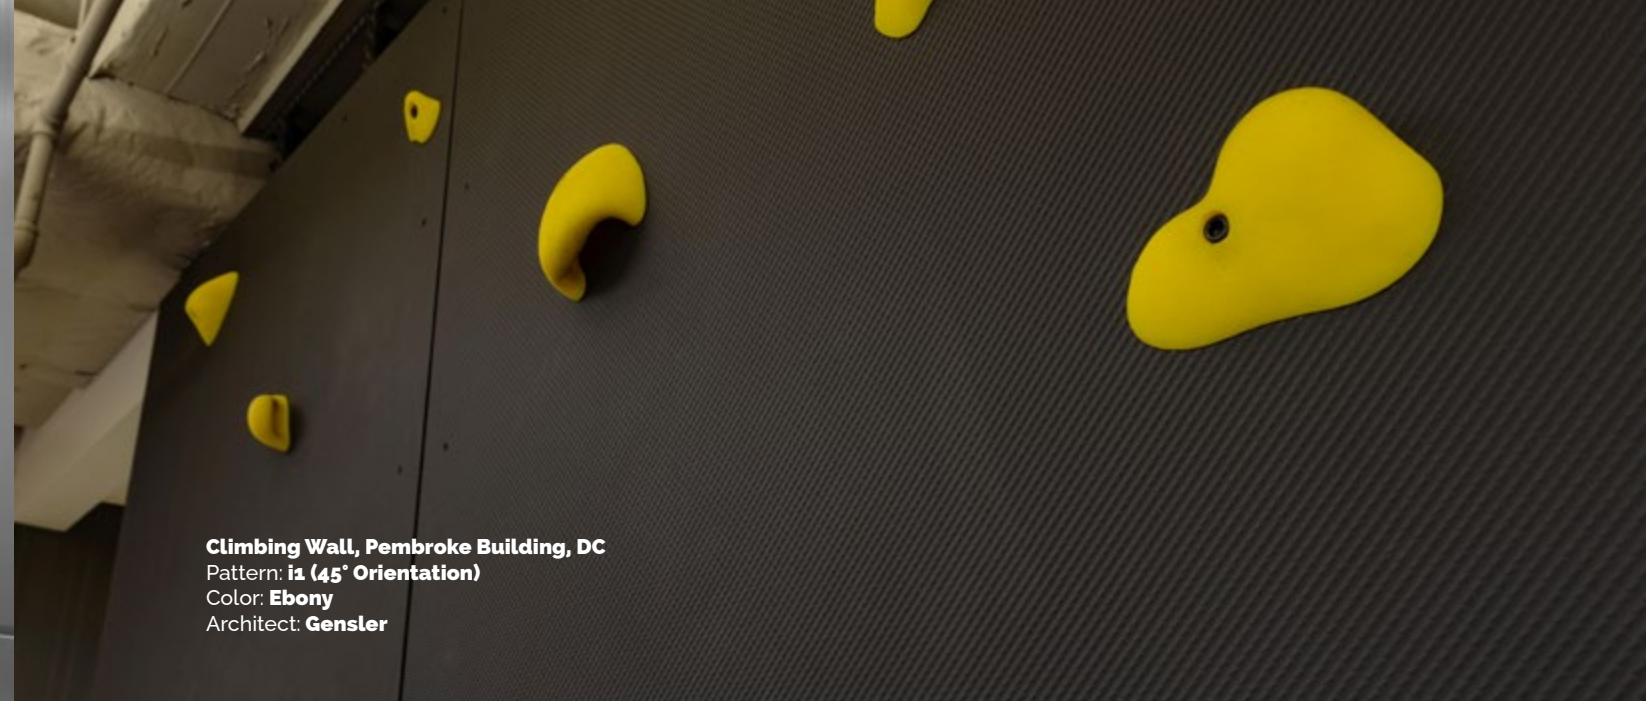

This durable, waterproof material is perfect for interior wall paneling, exterior cladding, rainscreens, and cabinetry.

Paper composite's resistance to wear and water, its hygienic properties -- as well as its versatility in machining and assembly -- make it the ideal material for self-supporting furniture systems and wall paneling.

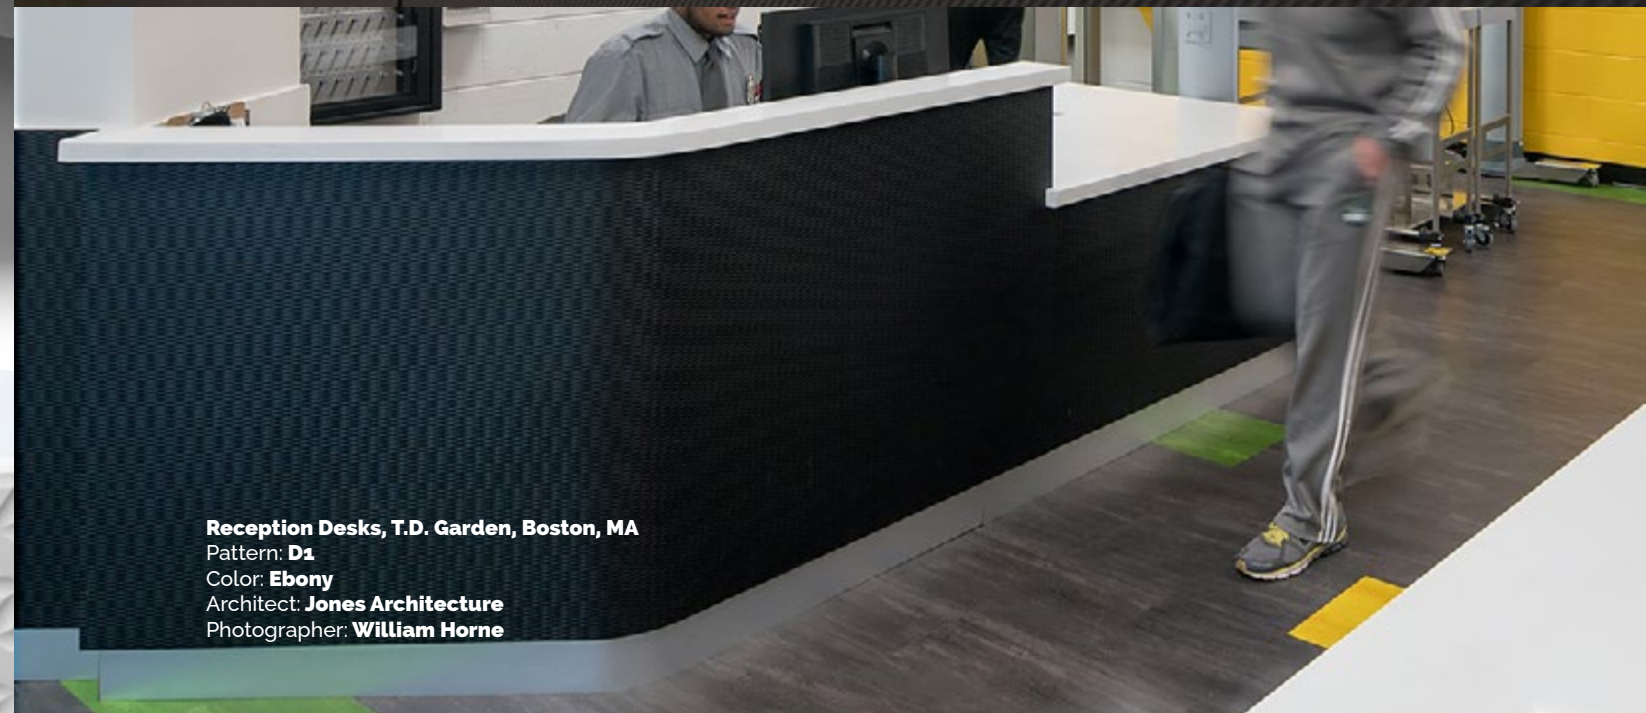

With its inherently clean looks and proven structural reliability, it is wonderfully suited for contemporary design.

MADE TO SPECIFICATION & READY TO INSTALL

Take away the effort from working with raw panels. Tekstur's value-added service division can cut, machine and finish panels to your project's specifications. Installation hardware can be pre-mounted, so that panel parts are delivered ready-to-install. We recommend Monarch Z Clips or Button-Fix™ mounting systems to make your installation efficient and precise.

CUSTOM PATTERNS & DESIGNS

Have a pattern in mind that you don't see in our catalog? Have some loose ideas for a pattern but need guidance to bring your ideas to light? We can work with your concept to design a custom pattern, machine the panels and cut them to your specifications. An all-in-one solution for decorative surfaces.

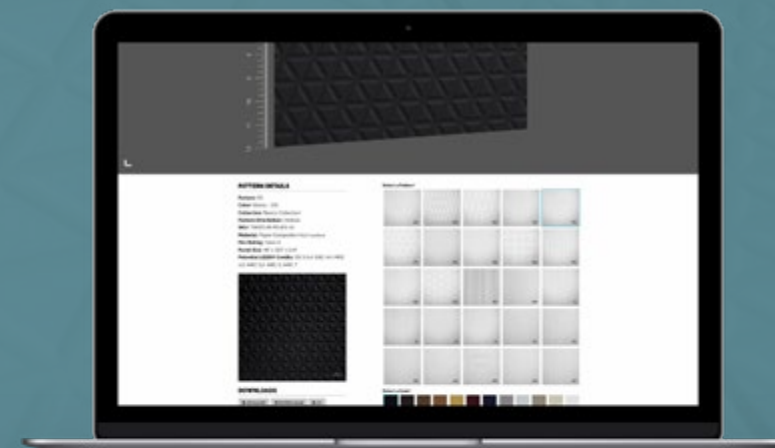

SPECIFY IT!

In an effort to reduce paper and energy usage, all technical documents related to Tekstur are available in digital format at the following link:

tekstur.com/downloads

There you will find:

CSI 3-Part Specs
Care & Maintenance Guides
MSDS Documentation
Certification Information
Warranty Information
Testing Documentation
FAQ's and much more...

PRO TIP:

We have created a pattern visualization tool that allows you to see every pattern in 3D, in all available colors. It also allows you to download a customized spec sheet and 3D files.
