* An additional surcharge is in place for Electricity and Gas which will be reviewed and notified to partners on a quarterly basis.

**The water rate is set by calendar year by our supplier. The rate was updated on 1st Jan 2025 and covers the period to 31st Dec 2025.

*** An additional storage charge per bag may be applicable based on number of excess short-shipped bags, length of storage and location of storage facility. The cost per bag will be confirmed at each instance where bags exceed the agreed tolerance. Adjustments to the processing and storage of short shipped bags and the method for charging is being discussed with the AOC and this will be updated once agreement is confirmed.

++ AGREED AOC ADJUSTMENT 25/06/2024. The following criteria has been agreed between Edinburgh Airport and the local Airport Operators Committee:

- Where handlers and airlines are able to perform efficiently and keep the facility clear of excessive inbound repatriated bags and where EAL does not have to step in and take action, no charges for bags sent to Edinburgh will be levied. This puts focus on the airlines to manage their handlers and take responsibility for bags they receive.
- The airport’s new ground handler agreement provides 12 hours as the allowed time for processing and shipping out repatriated bags. Assuming that the bags have been dealt with within 24 hours and EAL is not required to step in then no charges will be levied.
- EAL will require the handlers to submit information on the number of inbound repatriated bags on a daily basis – this requires authority from the airlines at the outset and will be key in actively tracking and managing the process. EAL will liaise directly with airlines when there is concern around volumes of bags and capacity for processing within 24 hours.
- Subject to the relevant data being provided by the handlers/airlines EAL agrees that the airline that holds the file as the last carrier to fly the passenger into EDI should be responsible for any charges incurred from EAL.
- Where EAL is required to step in and process inbound repatriated bags, all costs will be attributed to the applicable airlines. EAL will commit to providing invoicing transparency including a break down of all incurred charges included in the invoices.

Check-in charges for remote will be charged by the higher of booked time or used time

NB: Edinburgh Airport may also review Sundry Charges which are not required to be consulted on under the Airport Charges Regulations through its Chief Executive Notice (CEN) process.

The charges exclude VAT (if applicable)
