

BECAUSE GOOD CONNECTIONS ALWAYS HELP

Go Global. From Edinburgh Airport. #LimitlessConnections

Unlock #limitlessconnections with the Lufthansa Group airlines from Edinburgh Airport this summer.

As Austrian Airlines launch a new direct route to Vienna on 3 June, now all five Lufthansa Group hubs are served from Edinburgh. Fly direct to Brussels, Frankfurt, Munich, Vienna and Zurich with the possibility to connect onwards to up to 300 destinations worldwide. Furthermore, direct flights to Cologne, Dusseldorf and Stuttgart are also available with Eurowings.

Take advantage of optimised timetables and combinable fares, ensuring smooth connections and maximum flexibility.

Discover our Summer 2025 network

- Adjustable headrest
- Culinary delicacies with a choice of two main courses and a large selection of beverages
- 9" touchscreen monitor with almost 400 hours of video and audio entertainment
- USB port

Lounges

An oasis of rest and tranquility

Your clients can choose to relax, enjoy a wide range of gastronomic offerings, or simply use their time to work in peace and quiet. In our lounges, we aim to highlight Austria and the traditional charm of Austrian Airlines. In Vienna Airport's Austrian Star Alliance Terminal, we offer six spacious, modern lounges each with a HON Circle Lounge, a Senator/Star Alliance Gold Lounge and a Business Lounge extending over more than 2,000m².

Hub benefits

Vienna Airport, the ideal gateway between East and West

Vienna Airport is growing and remains Europe's fastest transfer hub, with an efficient minimum connecting time of 25 minutes. This is made possible by the building's three-level concept where passengers simply change levels, not terminals. At the Austrian Star Alliance terminal, travelers experience modern architecture, bright, spacious halls, short transfer routes and a wide variety of shops and dining options.

Connectivity

Austrian FlyNet®, our on board Wi-Fi

With Austrian FlyNet®, clients can always be online—even above the clouds. Passengers connect to the wireless network directly after boarding and, once cruising altitude is reached, can choose from three different service packages. Available on select aircraft from our short-haul and medium-haul Airbus A320 family.

Miles & More® and Star Alliance

Greater loyalty, greater rewards

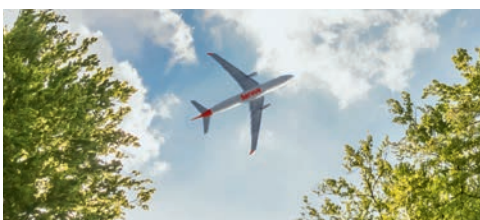

As Europe's leading loyalty program, Miles & More® allows passengers to earn valuable miles and points and redeem them for awards. Status customers enjoy additional exclusive privileges. Austrian Airlines is also a member of Star Alliance, the world's leading airline alliance, with 26 member airlines.

Sustainability

Committed to the environment

Carbon-neutral by 2050. That is the ambitious goal that Austrian and the Lufthansa Group have set for themselves. To achieve this, we are continuously expanding our portfolio of more sustainable travel offers, for example with the new Green Fares on flights within Europe. These fares already include the offsetting of flight-related CO₂ emissions by using 20% sustainable aviation fuels (SAF) and by contributing to high-quality climate protection projects for the remaining CO₂ emissions (80%) produced.
