THE FEVER-TREE STORY

FEVER-TREE BEGAN IN 2003 WITH A MEETING OF TWO MINDS AND ONE SIMPLE PREMISE: IF THREE QUARTERS OF YOUR G&T IS THE TONIC, WOULDN'T YOU WANT IT TO BE THE BEST?

From the very beginning, our founders Charles and Tim approached their business in a different way – there would be no compromise at Fever-Tree. Flavour and quality were of the utmost importance. Since we put the lid on our first bottle of our Premium Indian Tonic Water, we haven't wavered in our single-minded mission to bring quality, flavour and choice back to mixers.

Pioneering to produce an unrivalled drinking experience at every occasion we've developed our drinks menu with taste at the forefront. Our range of tonic waters are perfectly paired with some of our favourite gins, our gingers made for dark spirits have been mixed with the finest whiskies & rums and our flavoured sodas are served with vodka, vermouths and Italian liquors for the ultimate spritz.

We hope you'll find your perfect pairing, but don't hesitate to ask one of the team if you can't find what you're looking for.

GINS

The history of the gin and tonic is closely linked to modern British history. In the 18th century soldiers mixed their medicinal dose of quinine – to ward off malaria – with sugar, citrus and water to make it more palatable. Adding their daily ration of gin made it more enjoyable. Fast forward to present day...

We believe gin is only as good as the tonic water it's paired with. That's why, at FEVER-TREE, everything we do starts and ends with taste. In our quest for the perfect tonic water, we spent days in the British Library researching quinine sources before travelling to some of the most remote parts of the world, venturing as far as the Democratic Republic of the Congo to find the highest quality quinine, sourced from the legendary cinchona tree (locally known as fever-trees).

VODKA, TEQUILA & SPRITZ COCKTAILS

Spritz cocktails have a rich history starting life as the German 'Spritzen' wine with a splash of soda water. Today, the spritz still commonly appears as this combination, along with more bitter and savoury aperitifs and liquors. The increasing popularity for longer, lighter, and more refreshing drinks means the spritz serve has truly come into its own.

Here at Fever-Tree we have endeavoured to produce the perfect partners for these Italian liquors, vermouths and vodkas, using the very finest ingredients.

WHISKY, RUM & COGNAC

The most well-known and original Mule is the Moscow Mule, a serve consisting of vodka, ginger beer and lime. Since its creation and rise to fame the Mule has been developed into many variations. Mule cocktails are often recognised by their traditional serve in a copper mug which keeps the liquid ice-cold for longer.

These days the term highball is often used to describe any drink that is served in a tall glass. Technically speaking a highball should consist of nothing but whisky, ice and mixer but has seen a revival with the addition of other spirits and mixers in their place. One thing that's certain, is it needs to be served in a long glass.
