## Supporting Patient Access Through Technology

Our new solution, AMP: Access for More Patients, combines the familiarity of CoverMyMeds technology with end-to-end visibility into the patient journey for specialty medications from prescribing through adherence.

### With AMP, providers can use the CoverMyMeds Cases Dashboard to:

Reduce need for paper forms

Receive elevated, real-time notifications on action items

Track enrollment to therapy with online dashboard

e-Prescribe through CoverMyMeds Specialty Pharmacy<sup>1,2</sup> in-workflow

## Saving Time for Providers

Through AMP, providers can access the electronic enrollment form to enroll patients in support services while they are still in office.

This real-time, tech-enabled enrollment can help:

### Save time

Reduce calls and wait times

### Improve office efficiency

Auto-populate E-Prescribing patient forms

## Fast, Easy and Expert Support for your Providers

Real-time online chat support

Dedicated case managers available for exception management

## QUESTIONS?

Contact your CoverMyMeds or RxCrossroads representative or visit [go.covermymeds.com/patientsupportservices](https://go.covermymeds.com/patientsupportservices) to learn more.

1: For sponsored drugs only.

2: User may select another specialty pharmacy.
