Symbols Used in This Guide

The following are the meanings of symbols used in this guide:

DANGER

Risk of major injury such as

- fire
- chemical or poison
- crushing
- maiming
- death

WARNING

Risk of minor injury

NOTE

Useful information

Safety Information

Carefully read and follow all instructions prior to each use.

Store these installation instructions in the vehicle for future reference.

The rear sunshades are intended to be used exclusively with the Rivian vehicle for which they are designed.

DANGER

- Incorrect or improper installation may result in a rear sunshade becoming dislodged during travel. This may distract the driver, reduce visibility, or result in a crash.
- Only use a rear sunshade with the window completely closed.
- Install or remove a rear sunshade only when the vehicle is in **P** (Park).
- Install each rear sunshade only on the matching window. An ill-fitting sunshade can interfere with airbag deployment in an emergency or hinder your field of vision.
- Inspect a rear sunshade before installation and each use. Don't use the sunshade if it is worn, damaged, bent, loose, or degraded in shape or fit.
- Ensure any rear sunshade is secured in place before you drive the vehicle.

WARNING

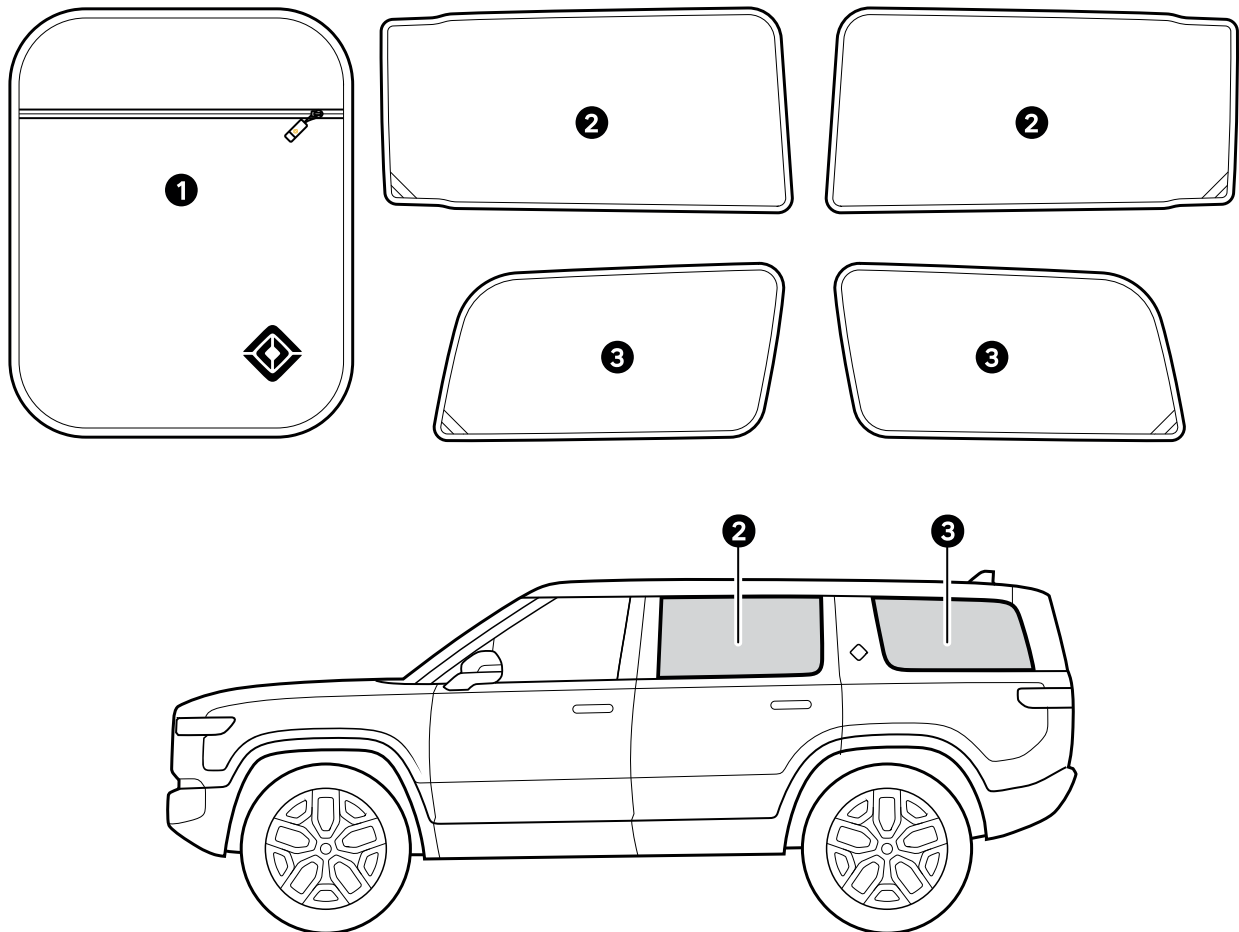

- Keep children and pets out of the vehicle during installation and removal of a rear sunshade.
- The frame of a rear sunshade is under tension. Use caution to keep the rear sunshade from causing injury or damage as you unfold it.

About the Rear Sunshades

The rear sunshades are available to fit one of these vehicles:

- R1S vehicle
- [R1T vehicle](#)
- [R2 vehicle](#)

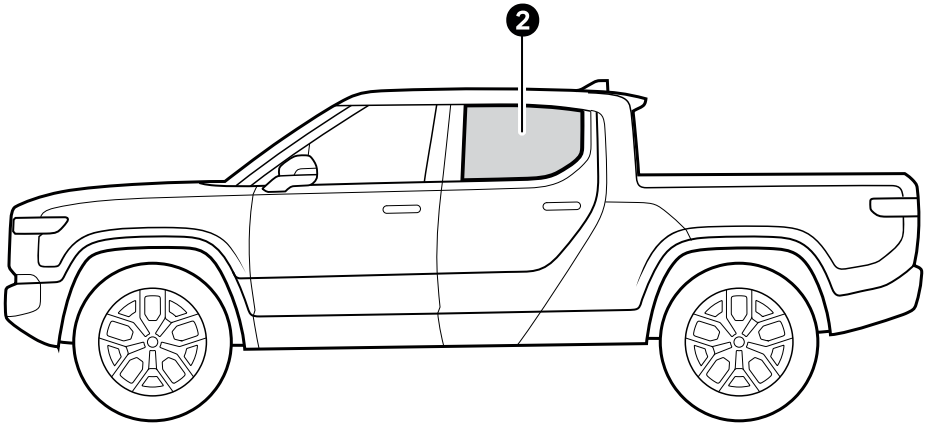

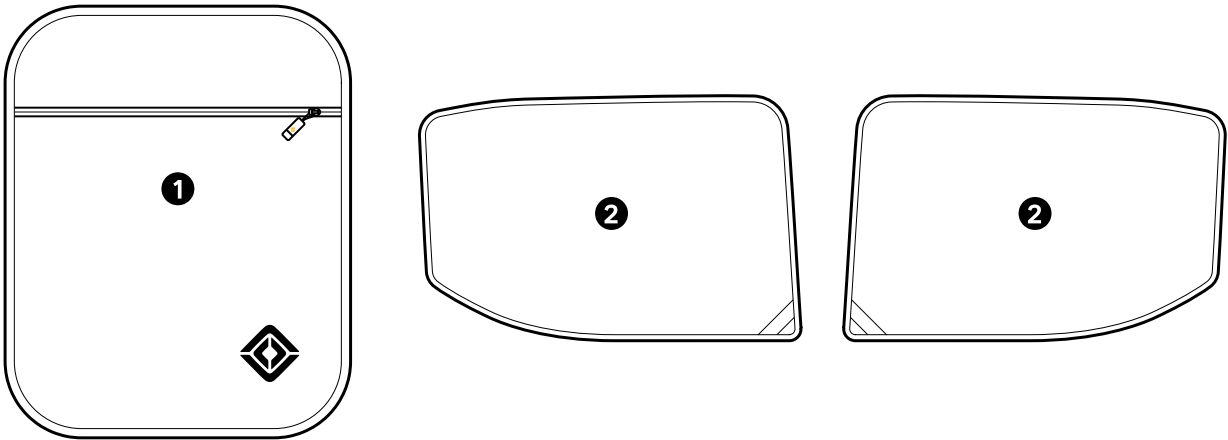

R1S Vehicle

Number	Description
1	Bag to hold the folded sunshades
2	Sunshades for the second-row windows (2x)
3	Sunshades for the third-row windows (2x)

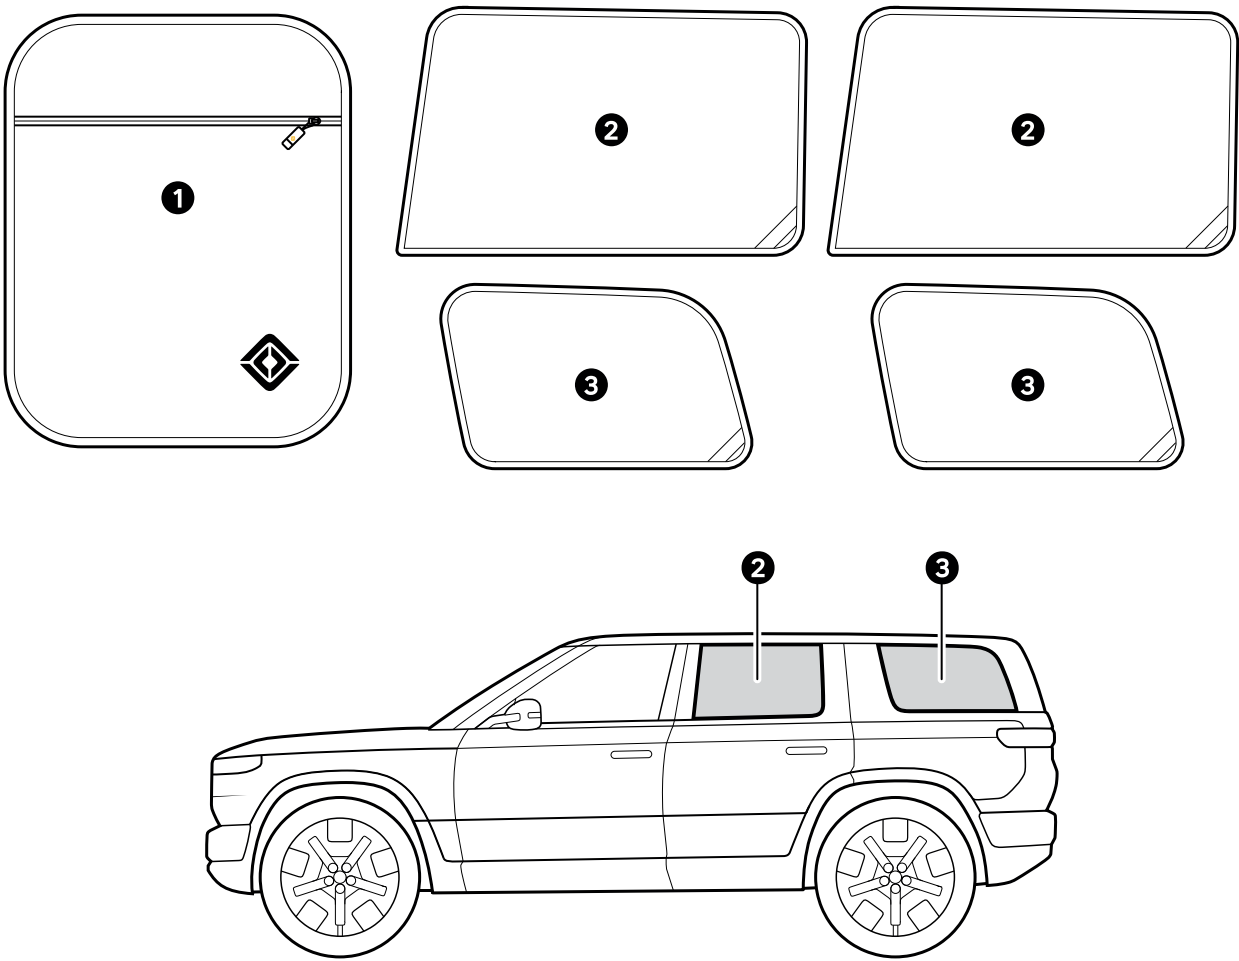

R1T Vehicle

Number	Description
1	Bag to hold the folded sunshades
2	Sunshades for the rear windows (2x)

R2 Vehicle

Number	Description
1	Bag to hold the folded sunshades
2	Sunshades for the rear windows (2x)
3	Sunshades for the cargo area windows (2x)

Install the Rear Sunshades

These instructions show the sunshade for the second-row window of the R1S vehicle but also apply to the other sunshades for the R1S, R1T, and R2 vehicles.

WARNING

- Keep children and pets out of the vehicle during installation.
- Only use a rear sunshade with the window completely closed.

DANGER

- Install each rear sunshade only on the matching window. An ill-fitting sunshade can interfere with airbag deployment in an emergency or hinder your field of vision.
- Ensure any rear sunshade is secured in place before you drive the vehicle.

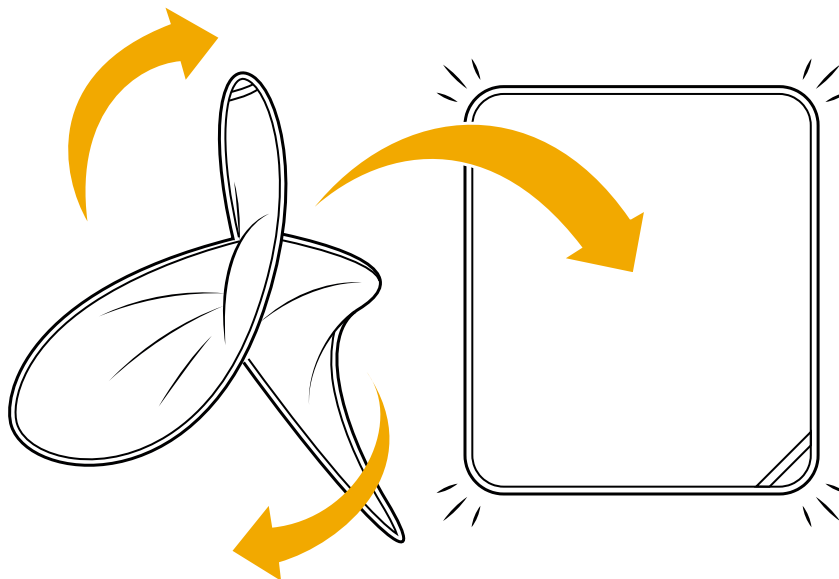

Unzip the bag and remove the sunshades. For each sunshade:

1. Hold the sunshade at arm's length, and unfold it.

WARNING

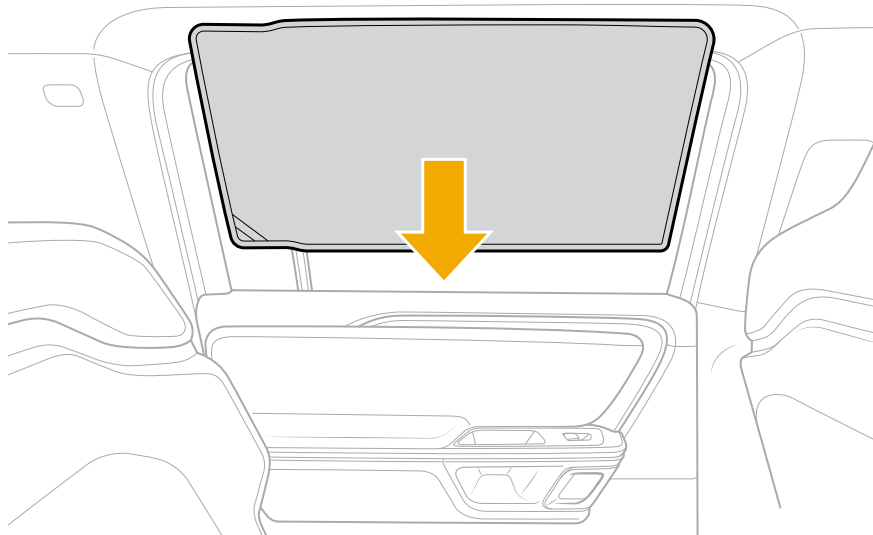

The frame of the sunshade is under tension; use caution to keep the sunshade from causing injury or damage as you unfold it.

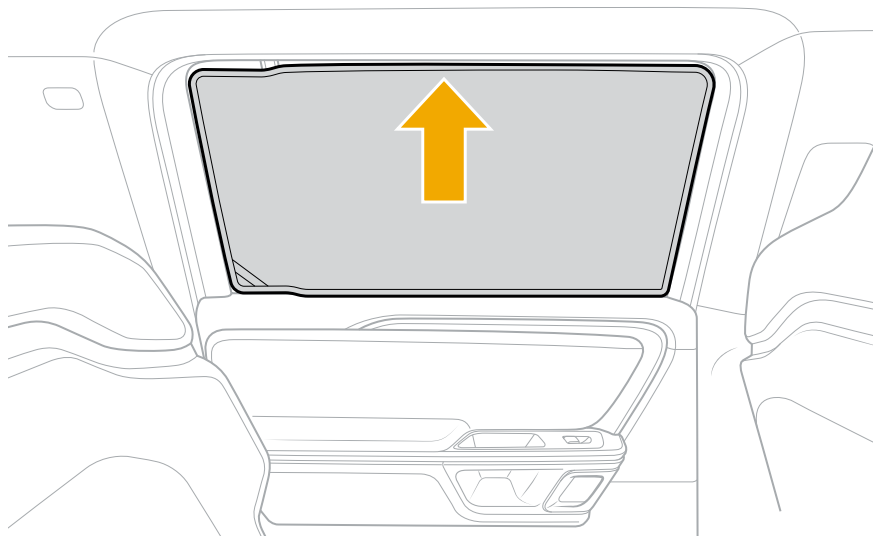

2. Ensure the window is closed.

Orient the sunshade so the pull strap is on the bottom rear-facing corner. Position the sunshade on the window so its bottom edge meets the bottom of the window.

3. Insert the top of the sunshade into the window seal.

4. If you see any part of the window, adjust the position of the sunshade so it fits flush. The tension of the sunshade keeps it in place.

Stow the Rear Sunshades

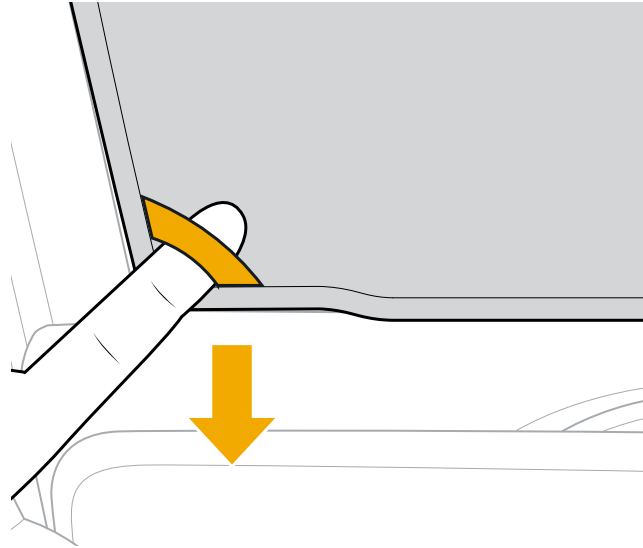

WARNING

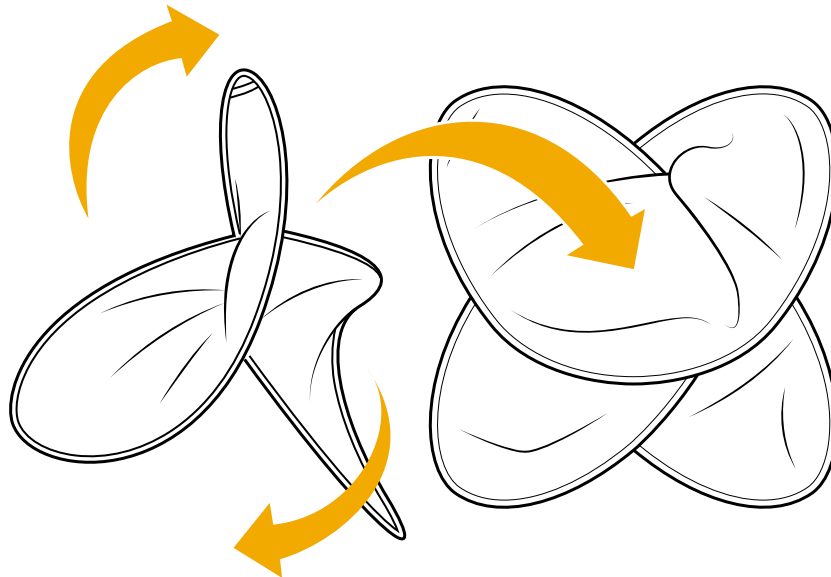

Keep children and pets out of the vehicle while you remove the sunshade.

For each sunshade:

1. Use the pull strap to release one corner of the sunshade.

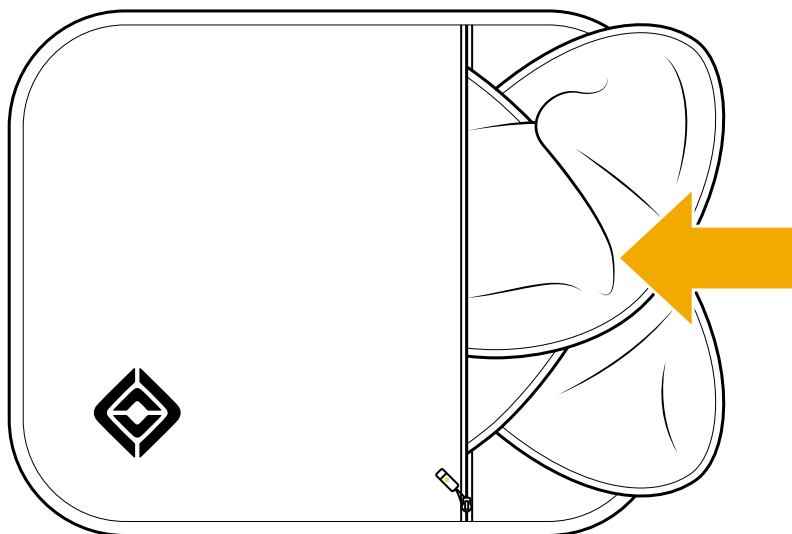

2. Remove the rest of the sunshade.
3. To fold the sunshade for storage, hold the sunshade by the edges. Turn the outside edges in opposite directions and then rotate inwards.

4. Insert the sunshade into the bag.

5. After you have stowed your sunshades, zip the bag closed.

Store the Rear Sunshades

Store the sunshades in one of the vehicle's storage areas, such as the front trunk.

NOTE

Keep the sunshades in the included bag when not in use to help protect them.

Clean the Rear Sunshades

Spot clean the sunshades with a damp cloth.

NOTE

Don't use cleaners that have bleach, ammonia, or alcohol on the sunshades.

Rear Sunshades Specifications

Item	Value
Material, sunshade	Sunlight-filtering mesh
Material, bag	Polyester with polyvinyl chloride (PVC) backing
Dimensions, bag (length x width)	11.8 in x 15 in (300 mm x 380 mm)
