**Webinar Announcement:
A Deep Dive into PXE
Research**

Join us for an insightful and
engaging webinar featuring

Drs. Qiaoli Li and Koen Van De Wetering, the dynamic duo leading the PXE International Center of Excellence in Research and Clinical Care at Thomas Jefferson University. These esteemed researchers have played a pivotal role in advancing our understanding of PXE. Their groundbreaking work has been the cornerstone of many significant discoveries that are paving the way toward potential treatments.

In this special session, Sharon Terry, CEO of PXE International, will interview Drs. Li and Van De Wetering. Together, they will explore the current landscape of PXE research, discussing both the opportunities and the hurdles that lie ahead. The conversation will delve into where the research team has made the most impactful strides, the challenges that remain, and the urgent needs that must be addressed to continue advancing PXE treatment.

Whether you are directly affected by PXE, a caregiver, or simply interested in the latest developments in rare disease research, this webinar promises to offer valuable insights and a chance to hear directly from the experts driving the future of PXE care. Don't miss this opportunity to be part of an important conversation! Your questions are welcome!

When: September 24 @ 1 PM ET

'SENIOR DISCOUNT' - A Bi-Monthly Column About the Ups and Downs of Managing PXE and Aging

Sam has also launched a bi-monthly column he is calling "SENIOR DISCOUNT." The column will feature short essays on the sustaining gifts and comic humiliations of metabolizing and managing PXE and age-related challenges. As you'll see, the introductory column doesn't mention PXE, but he assures us that many that follow will. We hope you'll subscribe (it's free!).

Raising Awareness for PXE

Do you want to educate your community members, co-workers, friends, and family about PXE? In response to numerous requests, we've created an informative infographic to help you share what PXE is, who PXE International is, and how others can contribute!

Attached, you'll find a full-sized, printable flyer for your convenience. Let's join forces to raise awareness about PXE!

Help those suffering with Pseudoxanthoma Elasticum (PXE)

What is PXE?

A rare genetic disorder causing:

- severe legal blindness
- skin issues
- vascular complications

Who is PXE International?

Since 1995, we have been the vanguard against PXE by:

- pioneering research
- bringing together a global network of laboratories
- managing an extensive tissue bank/registry
- leading charge with clinical trials

Our Mission?

Support

A responsive lifeline to affected individuals, providing crucial information to those newly diagnosed.

Educate

Equip medical professionals with knowledge and resources to recognize and understand PXE.

Research

A collaborative research consortium that's the powerhouse for most of the world's research on PXE.

How can YOU help?

As a non-profit, we rely on donations and your contribution directly fuels research for treatment development and supports clinical trials.

- **Credit Card:** Secure and convenient - Scan the QR Code for more info
- **Zelle:** Quick transfer via mary@pxe.org, under PXE International.
- **Check:** Send to PXE International, 26400 Woodfield Road #189, Damascus MD 20872-7509
