Q1 2025 Modernization Update

The Clark County Department of Aviation (CCDOA) continues its series of modernization projects at Harry Reid International Airport (LAS) to enhance the traveler experience and accommodate growing passenger demand. With 58.4 million guests welcomed last year, LAS continues to be one of the busiest airports in the nation.

These **upcoming projects** will improve existing infrastructure, operational efficiency, and expand available amenities.

T1 Escalator Installation to streamline passenger movement:

- Two new escalators will be installed in Terminal 1 (T1) baggage claim, ascending to Level 2, leading to the parking garage pedestrian bridge and deconflicting vehicle and pedestrian traffic.
- Two additional escalators will be constructed from Level 2, descending to the passenger pick-up area in the T1 parking garage.
- Installation is scheduled to begin in May 2025, with an estimated completion date early 2027.

D Gates Gaming Lounge - A new gaming and smoking lounge is kicking off construction, offering travelers a new entertainment experience in true Las Vegas style:

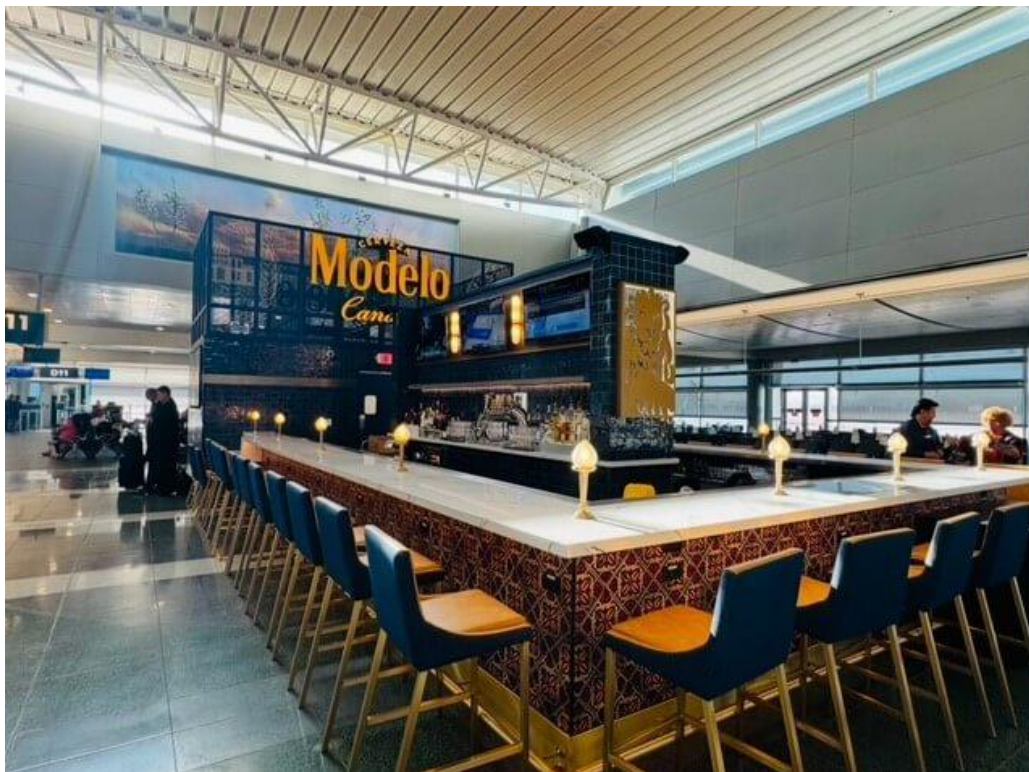

- The 890-square-foot space will be located on Level 2 of the D Gates, adjacent to Vera Bradley and Port of Subs.
- Construction is estimated to begin March 2025 and be completed approximately at the end of the year.

Discover the **newest amenities** that opened at LAS that are set to elevate the passenger experience:
