

HOLIDAY TRAVEL TIPS

 Remember 3-1-1. Pack liquids, gels and aerosols in your checked luggage when possible. If you plan to bring these items in your carry-on, they must be in 3-ounce containers and within a 1-quart plastic bag.

 Review the Transportation Security Administration's list of prohibited items before you fly at www.tsa.gov.

 Wait to wrap your gifts until you reach your destination. The TSA may open wrapped packages to inspect contents. Remember, snow globes are not permitted.

 Carry-ons are limited to one bag and one personal item, which includes purses, laptops, briefcases and pillows. Review your airline's size restrictions for carry-ons in advance.

 Prepare for the checkpoint. Have your boarding pass and photo ID in hand; remove your coat and shoes; and take laptop and liquids out of your bags for separate screening.
