LAS Continued Recovery in 2021

Harry Reid International Airport served more than 39.7 million passengers

LAS VEGAS – Harry Reid International Airport continued to be at the forefront of the return of travel during the COVID-19 pandemic by serving 39,710,493 passengers in 2021. This represented an increase of more than 17 million travelers from 2020's total.

"This past year reinforced that the demand for Las Vegas remains strong, and we are so grateful for all those who made us their destination of choice," said Rosemary Vassiliadis, Clark County Director of Aviation. "From stadium concerts to high-stakes sporting events, 2021 was a dress rehearsal for what LAS and the community can expect as Las Vegas solidifies its position as the premier entertainment destination. Southern Nevada is always changing, and while the airport may have a new name, our long-standing dedication to world-class customer service remains the same."

Passenger volume began an upward trajectory early in the year as access to vaccinations allowed for local restrictions to be lifted. While not yet at pre-pandemic levels, monthly passenger totals hovered around 4 million from June onward, primarily on the strength of domestic travel. After falling more than 55 percent in 2020, domestic passenger travel through LAS ended the year only 18 percent below its record 2019 total. The return of live entertainment and sporting events, as well as some conventions, provided a boost while setting the stage for additional growth.

Robust international travel remains the largest outstanding component of the airport's recovery. With the easing of international restrictions late last year, LAS welcomed back consistent service from Canada, the United Kingdom, the Netherlands and Panama. Mexico service, which returned in summer 2020, continued to perform well and accounted for 66 percent of all international travel in 2021. Additional international routes are expected to return throughout 2022.

Even in the midst of the pandemic, the Department of Aviation focused on the future. To this end, the airport completed the C Concourse renovation and crucial airfield upgrades. It welcomed new service and expanded routes from new and existing airline partners. Moreover, planning continued for the Southern Nevada Supplemental Airport, a second commercial airport in the Ivanpah Valley.

While cautious about the evolving nature and impact of COVID-19, LAS looks forward to the return of even more travelers eager to experience the array of opportunities that Las Vegas offers in 2022.
