

Core Sectors: Urban Regeneration

“

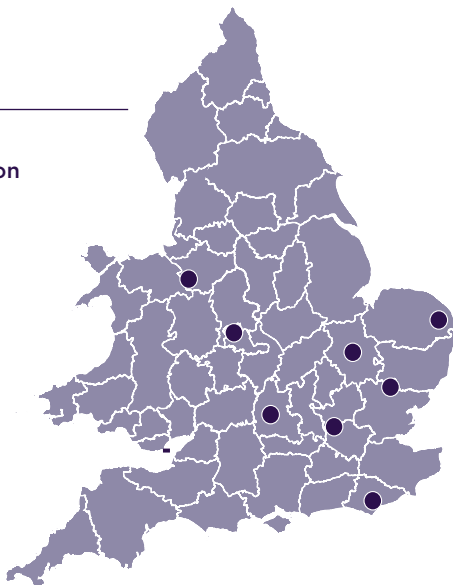

“We act on behalf of public sector bodies, including local planning authorities to **develop town centre plans, including regeneration frameworks and SPD's**. Our work is always rooted in a deep understand of place, whilst bringing our creative design and engagement skills to the fore”

Making great places from scratch is difficult, as is evident from the multitude of uninspiring new urban environments across the country. Yet, in many ways bringing about the effective urban regeneration of places is even more complicated. The design needs to be right for its physical context, its suitability for local people and its benefit to the economy. Our masterplanning team specialise in creating community-led visions and development frameworks for existing towns and urban areas. Working with public sector bodies, our experience includes the following projects:

Key projects

- East Barnwell, Cambridge
- Central Abingdon Regeneration Framework
- Nuneaton town centre, Warwickshire
- Great Yarmouth town centre, Norfolk
- Sudbury town centre, Suffolk
- Cannock town centre, Staffordshire
- West Marina regeneration, East Sussex

Our urban regeneration projects

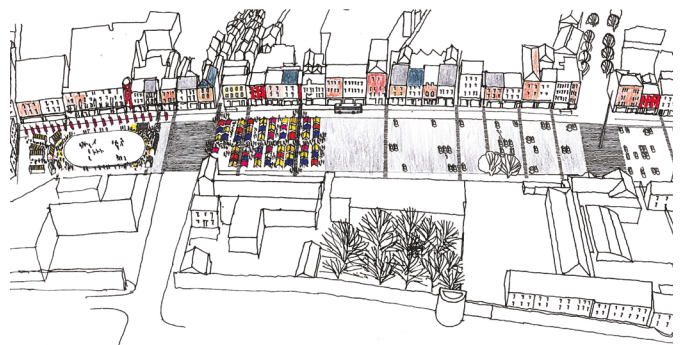

Key projects our team has been involved with:

Nuneaton Town Centre Regeneration

Central Abingdon Regeneration Framework

Great Yarmouth Town Centre Regeneration

**33 offices across
the country,
including 8 in
central London**
