Carter Jonas

Location

The land is situated to the north-west of the village of Beeford and to the east of the village of Foston-on-the-Wolds. The market town of Driffield is situated approximately 9 miles to the west with the popular coastal resort of Bridlington situated approximately 9.5 miles to the north-east. The A165 public highway which runs through Beeford connects Bridlington with the city of Hull.

Land

An excellent block of high yielding mainly Grade 2 agricultural land extending in all to approximately 411.68 acres.

The land is currently farmed within a combinable cropping rotation to include vining peas however, the land has also historically grown root crops.

The land situated to the west of Foston Lane (Lots 1 and 2) is classed as being grade 2 whilst the land situated to east of Foston Lane (Lot 3) is classed as being grade 3 under the former MAFF Land Classification Series.

The underlying soil type of the land situated to the west of Foston Lane (Lots 1 and 2) is classed as being part of the Holderness soil series which is described as a slowly permeable fine loamy soil being well suited to cereals. The land to the east of Foston Lane (Lot 3) is summarised as being part of the Downholland 3 soil series which is described as a deep stoneless clayey soil with a peaty or humose surface horizon and suited to cereals, sugar beet, potatoes and some root crops.

Lot 1 is accessed over a private right of way as shaded brown on the sale plan which connects the land with the public highway.

Lots 2 and 3 are accessed directly from the public highway known as Foston Lane.

The land benefits from a well-maintained drainage scheme which outfalls to Old Howe and Pitwherry Drains. Drainage rates are payable to Beverley and North Holderness IDB.

From Old Howe drain which splits Lots 1 and 2, the land rises from approximately 5 metres above sea level to 15 metres above sea level at Foston-on-the-Wolds. The land to the east of Old Howe drain rises to approximately 10 metres above sea level.

A reinforced concrete bridge (approx. 6 metres wide) over Old Howe drain connects Lots 1 and 2.

Isolation Unit and Dutch Barn

Situated on Lot 2, there is a general-purpose agricultural building (65' x 50') being of steel portal frame construction under a corrugated profile clad roof with part concrete block walls and Yorkshire boarding to eaves. A lean-to (15' x 15') provides additional storage. The building currently serves as a pig isolation unit.

Situated to the east of the pig isolation unit, there is a dutch barn (135' x 30') of timber frame construction under a corrugated profile clad roof which serves as a straw store.

The buildings and yard are let by virtue of a Farm Business Tenancy (FBT) to the adjoining pig unit at West Farm which expires on 15th September 2040.

Further details are available from the selling agent.

Slurry Store

Situated on Lot 2, is a 6,000 m³ slurry store being constructed of sealed precast concrete panels with a green membrane roof covering.

The slurry store was partially grant aided under the Slurry Infrastructure Grant and is operated by the adjoining pig unit at West Farm.

The new slurry store replaced the former slurry lagoons situated on Lot 4 which are now redundant.

The Vendor operates a muck for straw agreement with the neighbouring pig unit and the Purchaser will be obliged to enter into this agreement.

Further details are available from the selling agent.
