

Mitsuba House

(MRS Gunma みつ葉邸)

This vacation home was built using the best materials during Japan's economic bubble in 1977. Its temple-like exterior, high-quality wood and lighting, and interior shoji sliding doors are just some of its amazing features.

In 2016 it was upgraded to include a modern kitchen, bath, and toilet.

This traditional Japanese house has been remodeled with new tatami mats and interior to match its original woodwork.
