

Shima Tamura

四万たむら

This hot spring hotel was built in the Muromachi Period and boasts a history of over 450 years. It features the Shima Onsen waters that are gentle on the skin when bathed in and good for the stomach when ingested, as well as the Tamura Forest Rakuyogo that is over 330,000 square meters. The area also lets visitors get their hot spring fix thanks to its six baths with their own free-flowing hot spring that naturally delivers 1,600 liters of water per minute, as well as hot springs they can drink from.
