

Ring Announces its First-Ever Indoor-Only Camera, Ring Indoor Cam, the Company's Most Affordable Camera To-Date

In addition, Ring has further evolved its growing line of home security cameras with the next-generation Stick Up Cam

SEATTLE & London, UK – 25 September 2019 - [Ring](#), whose mission is to make neighborhoods safer, today announced two new security cameras: [Ring Indoor Cam](#), the company's first indoor-only camera, and the third generation [Ring Stick Up Cam](#), available in three power options: Plug-In, Battery, and Solar.

Ring Indoor Cam is Ring's most affordable camera yet and will be available for just £49. With its compact design, the new Ring Indoor Cam can be mounted just about anywhere in the home and features 1080p HD video, motion zones, night vision, two-way talk, and motion-activated recording. The device also includes privacy settings that enable users to disable motion and audio recording right from the app, and an indicator light that displays whenever the camera is recording or Live View is initiated.

Ring also today announced the third-generation Ring Stick Up Cam, the most versatile of the company's cameras, is available for pre-order. The new Stick Up Cam can be installed indoors or outdoors and comes in three power options: Plug-In £89, Battery £89, and Solar £129. Featuring 1080p HD video, motion detection, night vision, two-way talk, and a wide viewing angle, Stick Up Cam provides flexible home security and privacy wherever it's needed most.

Jamie Siminoff, founder and Chief Inventor of Ring, said: "We're excited to bring customers our most affordable camera yet, and provide even more security options with Ring Indoor Cam and the all new Ring Stick Up Cam. As a team of inventors, we are constantly pushing ourselves to identify innovative, cost effective and easy-to-use security products that make our neighborhoods safer. With our growing lineup of both indoor and outdoor cams, varying in size and functionality, our customers have choices when determining how best to secure their homes."

With the Ring app, users can link Indoor Cam and Stick Up Cam to compatible smart home devices from Ring for a smarter, more secure home. Both new cameras announced today work with selected Alexa devices. Just say, "Alexa, show the back garden" to see Live View or "Alexa, answer the living room" to begin speaking with whomever is in the home.

About Ring

Ring's mission is to make neighbourhoods safer by creating a Ring of Security around homes and communities with its suite of home security products and services. The Ring [product line](#) enables Ring to offer affordable, complete, proactive home and neighbourhood security in a way no other company has before. In fact, two Newark, NJ neighbourhoods saw an over [50 percent](#) decrease in home break-ins after Ring Video Doorbells and Spotlight Cams were installed on 11% of homes in the communities from April-July 2018 when compared to the same time period in 2017. Ring is an Amazon company. For more information, visit www.ring.com. With Ring, you're always home.
