

Sharpie Tie Dye Shirt

If you're looking to add funky and vibrant colours to your wardrobe, then this is the project for you!

What you need:

- White cotton T-shirt
- Sharpie Fine Permanent Markers, Assorted
- Rubbing alcohol
- Embroidery hoop or elastic bands
- Small dish or cup
- Eye dropper
- Iron

STEP 1 – Use the embroidery hoop or elastic band to tighten a section of fabric at the front of the shirt.

STEP 2 – Using your Sharpie markers, start drawing all over the shirt.

STEP 3 – When the design is complete, slip a plate inside the shirt under the embroidery hoop to catch any rubbing alcohol that may seep through.

STEP 4 – Pour rubbing alcohol into a small bowl. Using an eye dropper begin dropping rubbing alcohol on the t-shirt. If you have bullseye designs drop the alcohol in the center of each bullseye.

STEP 5 – Once it's dry remove the embroidery hoop and iron your shirt.
