

## Understanding Directions

This picture shows a globe.  
A globe is a model of Earth.  
A globe is the same shape as Earth but much smaller.

Read the labels on the globe.  
The North and South poles help you tell directions. North is toward the North Pole. South is toward the South Pole. When you face north, east is to your right. West is to your left.

A compass rose is a symbol that shows the four main directions on a map. On a compass rose the letters **N**, **S**, **E**, and **W** stand for the four directions.

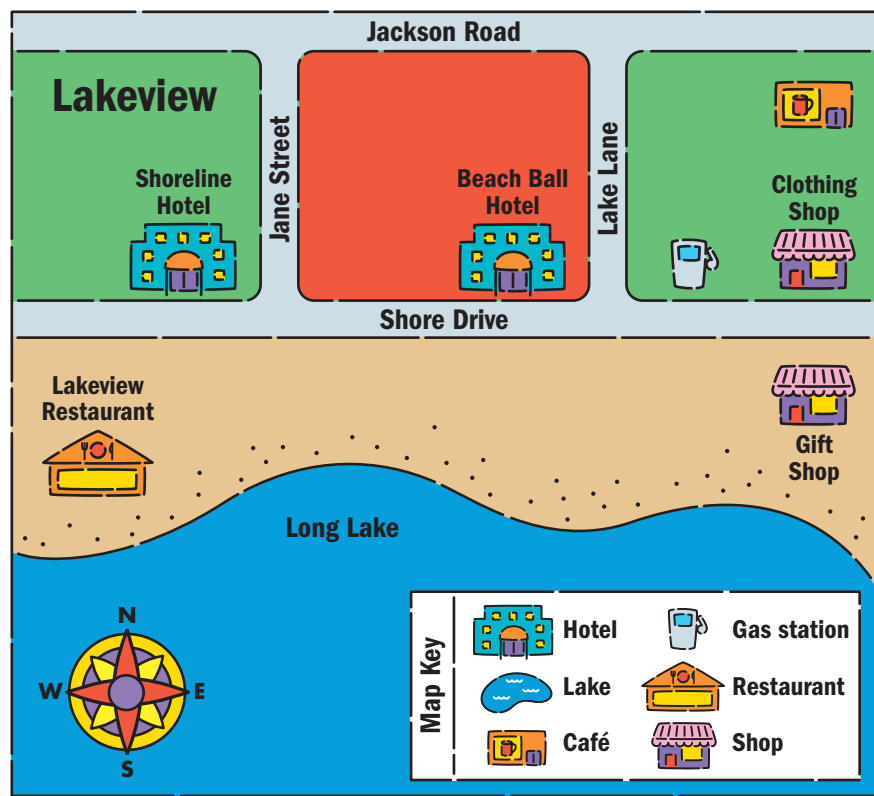

### Complete these sentences.

1. The most northern place on the globe is the \_\_\_\_\_.
2. The \_\_\_\_\_ is the most southern place on a globe.
3. On a compass rose, the letter W stands for \_\_\_\_\_.
4. The direction East is sometimes written as \_\_\_\_\_ on a compass rose.

**Helpful Hint**  
The four main directions are known as "cardinal" directions.

This map shows Lakeview. Use the compass rose to help answer these questions.

1. Is the lake on the north or south side of Lakeview?  
\_\_\_\_\_
2. In which direction are the hotels from the lake?  
\_\_\_\_\_
3. In which direction is the gift shop from the restaurant?
