

## Autumn Owls

### Materials:

- Coloured paper (various colours)
- UHU glue stic
- UHU Patafix (Tac)
- Scissors
- Pencil
- Googley eyes, glitter, etc.
- Dried leaves

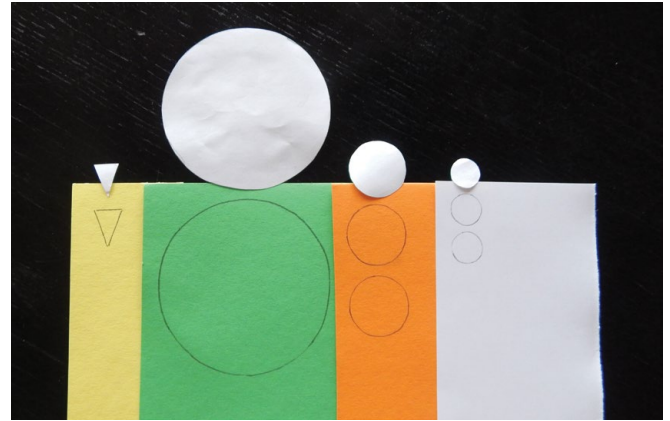

**Tip:** Make several owls to hang in windows or attach them to small branches for a decoration.

# Step-by-step tutorial

1

Draw and cut circles and triangles for the body, eyes and beak from heavyweight coloured papers.

2

Attach dried leaves onto the body of the owl using a small amount of UHU Patafix. This generates a beautiful 3D effect.

Tip: you can use artificial leaves.

3

Use a UHU glue stic to glue the individual parts of the eyes together and attach these to the body of the owl along with the beak. You can use google eyes or a black marker for the center of the eye.

4

Attach the eyes and two leaves for the feet using the UHU Patafix to create a 3D effect. If you wish, add glitter for some extra sparkle.

Your Autumn owl is ready to hang!
