

shopsafe

how are we keeping you and our associates safe?

Physical Distancing

From floor markers to protective shields, physical distancing is promoted at all times to keep everyone safe.

All-day Disinfection

Our ShopSafe team practices a rigorous cleaning regimen, day and night.

Clean Hands, Clear Mind

Sanitation stations throughout our stores reinforce and promote a germ-free environment.

Supporting Personal Health Assessments

Associates are conducting self-assessments before entering the store. Customers who have recently travelled outside the country or who are experiencing Covid symptoms are asked to stay home for everyone's safety.

Community Events

Virtual spotlight events are available while in-store community events have been placed on temporary hold.

More Ways to Shop In-store and Online

Contactless Curbside Pickup is now available. You can also order online or via our in-store kiosk and ship to your home or office for free.
