

## Rock Painting With Sharpie

Rock painting is simple, serious fun and accessible to anyone. All you need are the stones to give it a try and Sharpie Paint markers to create bold, colourful designs that will wow your friends!

What you need:

- Sharpie Oil Base Paint Markers, Medium and Fine Tip
- Flat and smooth rocks

STEP 1 – Start with the right stone. While there's no shortage of rocks lying around, for painting purposes flat and smooth works best to give you a large enough surface to work on.

STEP 2 – Outline your design. Depending on how complex your design is you may want to trace it in pencil first.

STEP 3 – Start colouring! Use your Sharpie markers to write an inspirational quote, favourite song lyric or symbolic design you can carry with you anywhere.
