

## Newspaper Math

### What to Do:

Use a newspaper to find the numbers listed below. Cut out your answers from the newspaper and tape them in the box with each question.

1. From the weather report, find the temperature in two cities.

2. Pick three items advertised for sale.

3. Find two different times that the same movie is playing.

4. From the sports pages, find three athletes that scored a point for their team.

5. Choose two numbers from an article of your choice.
