

## Flower Vase

Whether you fill them with fresh – cut flowers or use them as a design accent, these vases are a great way to add artful flair to any living space.

What you need:

- White porcelain or ceramic vases OR
- repurposed glass bottles
- Glue solvent
- White spray paint
- Washi tape
- Set of Sharpie Metallic Markers

STEP 1 – Wipe down vases with a clean, damp cloth for a dust-free writing surface. For repurposed glass bottles, scrape off any labels and use a glue solvent to rub off the gooey residue.

STEP 2 – Spray paint your base colour using a fluid motion from 8 – 12" away to avoid drips. Wait 15 minutes, then re-spray to ensure a thick and uniform basecoat. Let stand for 2 – 3 hours until paint is dry to the touch.

STEP 3 – Sharpie in your unique designs!

**Tip:**

- Use Washi tape to add colourful graphic stripes to your vase and to set straight lines to follow for the marker.
