

A Map Grid

Some maps have lines like this:
These lines form a **grid**.

A grid is a pattern
of lines that
form squares.

Each square on
a grid has a letter
and a number.
Find the letter "A"
at the side of the
map. Then find the
number 1 at the
top of the map.
The first square
in the top row is A1.
Can you find A2?

Use the grid to answer the questions.

1. What is in A4? _____
2. In what square is the soccer field? _____
3. Find D4. What can you do there? _____
4. Through what squares does the hiking path go? _____

Here is a map grid game you can play. Study the map. Then look for each square below. Write the square "name" (letter and number) under each picture.
