Sharpie Shrink Keychain Charms

As a natural do-it-yourselfer with creativity that knows no bounds transform your plastic containers into adorable keychains in a few easy steps!

What you need:

- Clean transparent plastic packaging (#6)
- Scissors
- Hole puncher
- Key chain rings
- Jump rings
- Sharpie Fine Permanent Markers, Assorted

STEP 1 – Cut out a large, flat piece of plastic

STEP 2 – Get inspired! Do some research to find samples of images you'd like to use.

STEP 3 – Begin drawing your image! Keep in mind that the images will shrink by up to 70% in the oven, so make sure they are large enough.

STEP 4 – Punch a hole at the top of your plastic. This hole will be used to attach the charm to a bracelet or to make a necklace.

STEP 5 – Cut out the image making sure not to cut off the hole.

STEP 6 – Place the plastic on a baking sheet and bake it for two minutes at 165 °C (330 °F).

STEP 7 – Take the charms out of the oven.

STEP 8 – Once room temperature, attach jump rings to the charms and connect them to your key chain rings!

Tip:

- It's best to use a black Sharpie and start with the outline.
