Peanut Butter

Yogurt Drops for Dogs

(Makes one large cookie sheet full)

Ingredients

3 tablespoons Greek yogurt

2 tablespoons peanut butter

Directions

In a small bowl, mix the peanut butter and yogurt until they're well incorporated, and spoon into a plastic sandwich bag.

Cover a large cookie sheet with waxed or parchment paper. Snip one of the bottom corners off the sandwich bag and use the bag to pipe half-dollar sized drops of yogurt mixture onto the cookie sheet. Put the whole tray into your freezer for a few hours to harden the drops.

Once the drops are frozen, transfer them to an airtight container and continue to store them in the freezer. Pop a few out for training sessions or just for a cool puppy treat.
