

In the *Martin & Sylvia: Saturdays!* story, "**Medals**", Martin and Sylvia plan for an afternoon with friends in which everyone can win a special medal. And they set to making medals at their worktable.

They used cookies, and now you can too! Make your favorite cookies, and when they are cool enough, wrap them in a square of foil. Glue the ribbon to the top of the cookie with a glue gun and then cover with a circular disk of more foil. Once the glue is dry, you have your cookie medals!
