MIDLAND & RCF LABORATORIES BRING A CONCERT DIRECTLY INTO YOUR HELMET.

MIDLAND & RCF
THE SOUND OF PERFECTION

HOW TO CHOOSE THE INTERCOM THAT SUITS YOU.

The intercom has revolutionized the travel experience on two wheels, simplifying communication during the journey, thanks to the possibility of connecting multiple devices, even simultaneously. All this in total safety so that you never get distracted while driving your bike.

Let's start with the right questions to find out together how to choose your device.
· What are you looking for in an intercom, something simple to listen to music or the navigation device while you are travelling?
· Are you travelling as a couple and want to communicate only with your passenger?
· Are you two friends and do you travel each with your own motorbike?
· How far do you want to be connected?
· You want to talk in a group with your friends. How many are you?
· Do you have friends all over the world and want to communicate with them without limits of distance or number of connected users?

The Midland range responds to every need. Choose the model that suits your needs.

Travelling by motorbike becomes a real experience with the right device.

THE LATEST GENERATION INTERCOM WITH MESH TECHNOLOGY

BT Rush bases its communication on **Midland Mesh Conference (MMC)**, the technology without "chains", developed by Midland that allows you to enter and exit the conversation when you want, in automatic and simultaneous connection with a group of up to 10 people/bikes. The **MMC** does not affect performance such as the **battery long life** (23h with Bluetooth, 15h with Mesh), the superior **audio quality** with **anti-turbulence microphone**, the **connections** available to talk to other devices. Moreover: **Stereo Background**, to keep the GPS or the music as the background to the intercom communication. **Waterproof IPX6 certified,** applies digital technology (DNK™ Digital Noise Killer, Noise Gate) to **reduce noise by 80%**.

BT Rush is compatible with the connectivity and control systems integrated by motorcycle manufacturers in the dashboards of many of their models (BMW, KTM, DUCATI...).

RANGE

Thanks to the **Dynamic Repeat function:** group communication with max 6 people up to a distance of 3.5 km. In **Mesh Conference mode** up to 10 people in a range of 1.4 Km.

MAGicLOCK

Automatic coupling system with magnets. Guarantees strength and practicality to your intercom.

SETTING

Update **BT Rush** via the BTUpdater software by connecting it to the PC (Windows or Mac) via the micro USB type C port and customizing it with BT PRO SetAPP from your smartphone (iOS and Android).

AND MUCH MORE:

· 1 Universal Intercom connection for pairing with intercoms of other brands
· Music Share
· FM radio with RDS, 6 station presets
· Voice status messages, Vox
· Connects 2 mobile phones at the same time
· Fixing system with double-sided tape and clamp
· Waterproof IPX6

PACKAGING AND CODES

Device, audio system with two 40 mm stereo speakers by RCF and 2 ear "cushions", wired and rigid anti-turbulence boom mike, magnetic fixing system to the helmet: with double-sided tape and clamp, shims, wall charger with USB-C cable.

Bluetooth™
4.2 DUAL CORE

INTERCOM UP TO 8 PEOPLE (4 BIKES)

BTX2 Pro S LR is the first mid-range intercom with dual Bluetooth 4.2 chipset technology: 8 people (4 bikes), including riders and passengers connected in conference mode, up to 6 people in One-to-One mode. All this in Full Duplex mode, with digital quality, DSP noise suppression system and AGC (a system you can disable and adjust) to control volume automatically according to background noise.
Compatible with integrated connectivity and control systems adopted by the major motorcycle manufacturers (BMW, KTM, Ducati, etc.).

RANGE

The range of **BTX2 Pro S LR** (without using the app), is 1.6 Km*.

STEREO BACKGROUND

Talk over the intercom while listening to GPS directions or to your favourite stereo music in the background. You can share music and GPS directions with the person you're talking to (even bike to bike).

SETTING

Update **BTX2 Pro S LR** via the BTUpdater software by connecting it to the PC (Windows or Mac) via the micro USB port and customizing it with BT PRO SetAPP from your smartphone (iOS and Android).

AND MUCH MORE:

· 2 Universal Intercom connections for pairing with intercoms of other brands
· Music Share
· FM radio with RDS, 6 station presets
· Voice status messages
· Vox
· Connects 2 mobile phones at the same time
· GPS connection for road directions
· Fixing system with double-sided tape and clamp
· Waterproof IPX6

PACKAGING AND CODES

Device, boom and wired microphones, slide-in clamp and double-sided tape mount system for all helmet types, audio kit with Hi-Fi speakers, USB charging cable, wall charger.
Single pack code C1414.02
Twin pack code C1414.03

BTX2+BTX1 PRO S - LIMITED EDITION

THE TWO TOP INTERCOMS OF THEIR OWN CATEGORIES, IN A SMART PACKAGE

The smart package that combines **BTX2 Pro S**, top of the range of the group communication with dual Bluetooth chipset technology and the performance of the **BTX1 Pro S** model.
Both are **compatible with the TFT displays** of the major motorcycle manufacturers and equipped with high quality sound speakers.
Waterproof, faultless even at **high speeds,**

double background for the driver so he can talk to the passenger and listen to the navigation device directions at the same time.

Two models at a truly smart price, in a single package for the rider who wants the best communication on the bike and for his/her passenger, always connected.

PACKAGING AND CODES
1 BTX2 Pro S, 1 BTX1 Pro S, 2 audio systems with two stereo speakers, 2 wired and 2 rigid boom microphones, 2 helmet slide-in fixing systems with double-sided tape and 1 clamp, 1 wall charger with 2 single USB cables.

BTT BUTTON

THE BUTTON FOR BTTALK APP

WATERPROOF

EASY PRESS

*The service works optimally under 3G/4G signal coverage

WITH THE BUTTON YOU TRANSMIT FROM THE HANDLEBAR AND TALK / LISTEN FROM THE INTERCOM. DESIGNED TO COMMUNICATE SAFELY, WITHOUT TAKING YOUR HANDS OFF THE HANDLEBAR

BTT Button is a registered patent.

Transmit simply by pressing the wireless **BTT Button**, compatible with all latest generation smartphones (iOS and Android). BLE (Bluetooth Low Energy) technology guarantees a constantly stable connection and extremely low battery consumption (up to 2 years). The battery can be replaced. Its design guarantees perfect ergonomics while driving, without affecting the handle grip, while the silicone strap allows immediate fixing/release.

WATERPROOF AND VERY LOW CONSUMPTION

Fully waterproof, **BTT Button** does not fear bad weather and mud. Also, the very low power consumption guarantees almost unlimited use without having to recharge the battery!

PACKAGING AND CODES

Communication button with silicone strap for handlebar fixing/release.

VIDEO CAMERAS

DASH CAM | ACTION CAM

BIKE GUARDIAN WI-FI

BIKE/CAR DASH CAM

Full HD 1080

- **WI-FI**
- **CYCLE RECORDING**
- **DUAL USE: BIKE/CAR**
- **WIDE-ANGLE 170°**
- **WATERPROOF IP68**
- **1920X1080P (30FPS)**

Bike Guardian WI-FI is the **FULL HD** video camera for motorcycles and cars, featuring continuous recording, very useful in the event of an accident to determine causes and responsibilities. Connected to the bike or car USB port (if not present as standard, use the waterproof power cable supplied), the video cam automatically begins recording when the vehicle starts and switches itself off when the same is turned off. With the Visionbank application, you can control the video camera remotely using a smartphone or tablet.
Bike Guardian Wi-Fi has a completely new look thanks to its metal case, with new finishes. It is **IP68 certified**, so it could even record up to 10 meters underwater!

MOTORBIKE/CAR MODE

Continuous recording when connected to an external power supply (car/motorbike).

INTEGRATED WI-FI

Managed via app.

G-SENSOR

As it is equipped with an accelerometer, if there is an accident, recorded videos can be protected automatically.

MOTION DETECTION

Automatic recording, sensitive to the movements of those who walk in front of the camera to prevent theft and vandalism.

PACKAGING AND CODES

Video camera, USB cable, waterproof USB cable, fixing bracket, handlebar mounting, suction cup mounting, double-adhesive mounting consisting of: GO-PRO adaptor, screw, quick fixing, double-adhesive flat base. **code C1424**

OPTIONAL USB WATERPROOF CABLE - R01988

BIKE GUARDIAN

BIKE DASH CAM

Full HD 1080

CYCLE RECORDING	WIDE-ANGLE 120°	RAINPROOF IP65	1920X1080P (27FPS)

Bike Guardian, the new bike video camera with **FULL HD** resolution, designed and made to be another "eye" that records everything that happens while you are driving.
Highly useful in the event of an accident to prove who was involved and who was to blame.
Bike Guardian is the first bike video camera with continuous recording. Connected to the bike USB port with the cable supplied, it starts recording automatically when the bike is switched on and turns itself off when the same is turned off.
Bike guardian can be used also as a traditional action cam and, thanks to its integrated battery, allows up to 2 hours' recording.
Integrated microphone and speaker.

RAINPROOF

Bike Guardian is able to withstand bad weather, mud and dust, ensuring a video without interruptions. Even the cable, which connects the video camera to the bike socket, is rainproof.

PACKAGING AND CODES

Video camera, lock mount, handlebar mount, bi-adhesive flat mount, bi-adhesive curved mount, quick fixing, screw, GO-PRO adaptor, strap mount, USB cable, USB rainproof cable, wrist belt.
code C1415

OPTIONAL WATERPROOF USB CABLE - C1457

EIS FEATURE ELECTRONIC IMAGE STABILIZER

TIME LAPSE PHOTO

TIME LAPSE VIDEO

WIDE-ANGLE 170°

H9 is an extra-slim video camera with a compact design and excellent resolution: **Real 4K!! H9** can record films with resolution up to 4K@30fps; moreover the built-in Ambarella chipset guarantees the best ever videos! Thanks to the Panasonic sensor, H9 can take high quality photos up to 14MP.

BUILT-IN 2" LCD

H9 has a built-in display for framing and easily adjusting settings as well as reproducing photos and videos.

TIME LAPSE

It produces exceptional videos with H9 advanced features: Photo Time Lapse (sequence of photos at a set time interval) and Video Time Lapse (creates accelerated videos).

REMOTE CONTROL

Equipped with wireless wrist remote control, 2.4 GHz. The keys control and activate switching on/off, Videos and Photos.

30M WATERPROOF CASE

The underwater case supplied protects the action cam from water up to a depth of 30 meters, but also from mud and dust.

WI-FI

Thanks to the built-in Wi-Fi and high-performance chipset, H9 connects to smartphones and tablets to watch again and share videos and photos with the dedicated "Midland H9" App (iOS and Android).

PACKAGING AND CODES

Video camera, 30 m waterproof case, remote control, 3.7V/1000mAh Li-ion battery pack, frame (for use without case), curved base, flat base, 2 quick-release couplings, 90° support, handlebar support, band, USB cable, screw, screw coupling.

MIDLAND®

MIDLAND, a brand born in 1959 in a small factory in Kansas City, is today the world leader in the radiocommunication and consumer electronics sector.

A group that today has over **15 European and non-European subsidiaries**, between branches and strategic partners, and a distribution in **over 90 countries**, under the guidance of the **Italian Headquarters**.

Reggio Emilia is the headquarters of Research and Development that carries out the company mission daily and with great commitment.
"Create a world where communicating is simple, fun and available to everybody."

Design and manufacture with passion products of quality, technologically innovative and that respond to the real need of all of us: to communicate.

A success that has lasted for over 60 years.

CERTIFICATES

ISO 9001 2015: for the design, production and installation of telecommunications equipment and systems for industrial, civil, marine and consumer use.

ANITEC-ASSINFORM: MIDLAND EUROPE is a member of the research and innovation commission of the ANIE Federation, a member of Confindustria and representing electro-technical and electronic companies operating in Italy.

WARRANTY

All our products are covered by a 24 month warranty, as long as they are sent to our Technical Service Centers together with receipt.
Contact our Authorized Dealer who will tell you where the nearest Service Center is located.
N.B.: we accept the return of goods upon two conditions: the agreed authorization from Sales Dept. (0522 - 509411) or Customer Technical Support Dept. (0522-509535) or Intercoms Dept. (0522-509446) and if costs of shipments are covered by sender. The authorization is mandatory and if missing, products will be immediately returned to the sender.
