# Things for you to bare in mind ahead of your move out cleaning.

## **What's included:**

- Make sure the home is emptied of furniture and loose objects.
- Make sure your freezer is turned off and defrosted (and don't forget to empty the fridge before the move out cleaning!)
- Remember to pull out appliances, such as fridge, freezer, stove, washing machine and tumble dryer if you want us to clean behind them.
- For us to be able to clean underneath the bathtub any eventual bathtub front needs to be dissembled.
- We only dry dust walls. This means that we are unable to remove stains or marks that cannot be removed with a dry dust cloth.

## **What's not included:**

- We do not clean water traps under hand basin and kitchen sink.
- We do not clean blinds.
- Keep in mind that sub surfaces such as e.g. storage spaces, garages and balconies are not included in our moving out cleaning, but of course you can add that to your booking.
