- Balcony- and garage cleaning.
- Polishing of crystal chandelier.
- Polishing of brass or silver.
- Furniture care of leather sofas/chairs.
- Ironing.

## Things for you to bare in mind ahead of your deep cleaning.

- To get the best cleaning results, we recommend that scattered items are removed in the home before we arrive. By doing so, we can focus on the cleaning during our assignment.
- Notify us of any sensitive objects or materials (eg marble).
- Remember to pull out appliances, such as fridge, freezer, stove, washing machine and tumble dryer if you want us to clean behind them.
- For us to be able to clean underneath the bathtub any eventual bathtub front needs to be dissembled.
- We only dry dust walls according to the general cleaning routines included in deep cleaning. This means that we are unable to remove stains or marks that cannot be removed with a dry dust cloth.
- We will bring all the cleaning products needed for a fee which will be added to your invoice.
- If you are missing a vacuum cleaner (not a portable hand-held) with necessary nozzles, ladder or mop and bucket, we can bring these with us for a fee.
