Things to consider before your move-out cleaning.

What is included:

- Make sure the home is cleared of furniture and loose items.
- Ensure your freezer is switched off and defrosted (and don't forget to empty the fridge before cleaning!).
- Pull out appliances such as the fridge, freezer, stove, washing machine and tumble dryer from the wall if you want us to clean behind them.
- Remove the bathtub panel if you want us to clean underneath.
- We only dust-wipe walls. This means we are unable to remove stains or marks that cannot be removed with a duster.

What is not included:

- We do not clear drain traps under sinks or kitchen sinks.
- We do not clean blinds.
- Note that secondary areas such as storage rooms, garages and balconies are not included in our move-out cleaning, but can of course be booked as an add-on!
- We clean windows up to a maximum height of 3.5 metres. If needed, we can bring a ladder at an additional cost.
- We do not clean damaged windows or windows that cannot be opened normally – please inform us well in advance.
