FALL 2023 • CVGairport.com

## THE FACTS

- **Serving commercial passengers since 1947**
- **14 passenger airlines/tour operators**
- **50+ nonstop destinations**
- **6<sup>th</sup> largest cargo airport in North America and 12<sup>th</sup> largest globally (2023)**
- **Home to Amazon Air Hub & DHL Express Global Superhub**
- **7,700 acres of airport property**
- **16,000 badged employees on campus**
- **70+ employers on CVG campus**
- **47,000+ total jobs supported**  
(direct and indirect/2018)
- **\$133 million operating budget for 2022**
- **Safety Act-certified by the U.S. Department of Homeland Security**  
(first U.S. airport with this designation)

## CVG MILESTONES IN 2023

In June 2023, British Airways launched nonstop service to London Heathrow, making CVG the exclusive gateway to London for Ohio, Kentucky, and Indiana residents. Additionally, Breeze Airways introduced year-round service to San Francisco, CA, and Charleston, SC, as well as seasonal routes to Richmond, VA; Jacksonville, FL; Providence RI; and Orange County, CA, further enhancing CVG's connectivity.

A new aircraft mechanic training facility is currently in development at CVG. The \$7 million venture between Epic Flight Academy and FEAM Aero will offer valuable on-site educational opportunities for future aircraft mechanics.

DHL unveiled plans for a \$192 million, 300,000 sq.ft. maintenance hangar at its Global Superhub at CVG, with a projected completion date in 2025.

CVG earned top spots in Skytrax Awards:

- *North America's Best Regional (Domestic) Airport: #2*
- *North America's Best Airport Staff: #3*
- *World's Best Airport 5-10 Million Passengers: #6*
- *North America's Cleanest Airport: #6*
- *World's Best Regional Airport: #10*

A customer-centric experience is a top priority at CVG. These results showcase our superior customer service and focus on keeping our facilities welcoming and clean.

## LAND DEVELOPMENT

An aerial view of the CVG footprint showcases how aviation connected growth, combined with a strategy to lease airport property, has transformed CVG's campus in recent years.

CVG is the fastest growing cargo airport in the world, with 70% growth over the last five years. To continue this growth, CVG is working on two major projects in the coming years including Hangar Row and North Cargo Village. Hangar Row is a vision to develop 350 acres of airside real estate on the airport's south side. The project's goal is to create a one-stop-shop on airport property with the development of additional aircraft repair and maintenance operations.

- 1 DHL Global Super Hub
- 2 Amazon Air Global Hub
- 3 FEAM Aircraft Maintenance Hangar \*Second FEAM Hangar to open in 2024
- 4 CVG Rental Car Facility
- 5 CVG Passenger Terminal/Concourses
- 6 Planned Development with Paul Hemmer Company - Multi-Use Development
- 7 Hangar Row
- 8 North Cargo Village
- 9 Epic Flight Academy

● New business on campus since 2016    ● Update to facility since 2016  
● Opened in 2021    ● Ongoing development    ● Cargo-centric

Development of North Cargo Village allows CVG to continue to grow and diversify cargo operations. The airport is working to recruit additional freight forwarders, developers, and other organizations that specialize in general cargo activity: shipping large parcels and high-value goods without time-sensitive delivery requirements. These businesses would complement Amazon's and DHL's express shipping operations.

## ELEVATE CVG

In the coming years, CVG will undergo a multi-year facility modernization program, Elevate CVG. One project includes the reconfiguration of the Welcome Point to install new exit lane technology on the lower level of the Terminal. Another project involves the design and installation of a new baggage handling system. The new system will enhance operational efficiency and bag processing times. Design of this critical system will take several months with construction taking place over several phases for three years.
